THIS IS A MEETING WHICH THE PUBLIC ARE ENTITLED TO ATTEND

19th May 2023

Dear Sir/Madam

ANNUAL MEETING OF THE COUNCIL

A meeting of the Annual Meeting of the Council will be held in Remotely via Microsoft Teams on Thursday, 25th May, 2023 at 10.00 am.

Yours faithfully

Damien McCann
Interim Chief Executive

AGENDA

Pages

1. SIMULTANEOUS TRANSLATION

You are welcome to use Welsh at the meeting, a minimum notice period of 3 working days is required should you wish to do so. A simultaneous translation will be provided if requested.

2. APOLOGIES

To receive.

Mae'r Cyngor yn croesawu gohebiaeth yn Gymraeg a Saesneg a byddwn yn cyfathrebu gyda chi yn eich dewis iaith, dim ond i chi rhoi gwybod i ni pa un sydd well gennych. Ni fydd gohebu yn Gymraeg yn creu unrhyw oedi.

The Council welcomes correspondence in Welsh and English and we will communicate with you in the language of your choice, as long as you let us know which you prefer. Corresponding in Welsh will not lead to any delay.

3. **DECLARATIONS OF INTEREST AND DISPENSATIONS**

To consider any declarations of interest and dispensations made.

4. **PRESIDING MEMBER'S ANNOUNCEMENTS**

To receive.

5. **PRESIDING MEMBER AND DEPUTY PRESIDING MEMBER**

To appoint Presiding Member and Deputy Presiding Member of the Council for 2023/24.

6. **LEADER AND DEPUTY LEADER OF THE COUNCIL**

To appoint Leader and Deputy Leader of the Council for 2023/24.

7. **GROUP OFFICERS**

Group Secretaries to report on Group Officers for 2023/24.

8. **MEMBERSHIP OF THE CABINET**

To appoint Membership of the Cabinet for 2023/24.

9. **CHAIR, VICE-CHAIR AND MEMBERSHIP OF SCRUTINY COMMITTEES**

To appoint Chair and Vice-Chair and Members of the Scrutiny Committees for 2023/24.

10. **STANDING COMMITTEES AND STANDING SUB-COMMITTEES**

To appoint Chairs and Vice-Chairs of Standing Committees and Standing Sub-Committees for 2023/24.

11. **SPECIAL AND AD HOC COMMITTEES/CONSULTATION MEETINGS**

To appoint Members to Special and Ad Hoc Committees/Consultation Meetings.

Agenda Item 14

Cabinet and Council only

Date signed off by the Monitoring Officer: 04.05.2023

Date signed off by the Section 151 Officer: 03.05.2023

Committee: **Annual Council**
Date of Meeting: **25th May, 2023**
Report Subject: **Annual Cycle of Meetings 2023/24**
Portfolio Holder: **Councillor S. Thomas, Leader of the Council/Cabinet Member Corporate Overview & Performance**
Report Submitted by: **Elizabeth Thomas, Scrutiny and Democratic Officer**

Reporting Pathway								
Directorate Management Team	Corporate Leadership Team	Portfolio Holder / Chair	Governance Audit Committee	Democratic Services Committee	Scrutiny Committee	Cabinet	Council	Other (please state)
							25.05.23	

1. **Purpose of the Report**
 - 1.1 To present the Annual Cycle of Committee meetings for 2023/24 and a decision-making process which, if required, would take place during the proposed August recess.
2. **Scope and Background**
 - 2.1 The report presents the Annual Cycle of Committee meetings for 2023/24 for Members' consideration. As part of the cycle a proposed recess is included which would cover the period 1st - 31st August 2023 inclusive, and the report details a process for decision-making to ensure that urgent matters can be dealt with during the proposed recess period should it be adopted.
 - 2.2 The agreement of the Annual Cycle of formal meetings forms part of the overall governance arrangements for the Council and supports the democratic process.
 - 2.3 The proposed cycle of meetings is attached at Appendix 1 for consideration.
 - 2.4 The Annual Cycle of Meeting includes a four-weekly cycle for the Governance and Audit Committee, increased from a six weekly cycle last year.
 - 2.5 Reflecting previous cycle of meetings, efforts to align specific committees to specific days have been made. Also, as in previous years, meetings have not been included within the school holidays.
 - 2.6 Flexibility is to be expected in the implementation of the cycle, including the relevant Chair considering the business to be undertaken and responding accordingly.
3. **Options for Recommendation**
 - 3.1 **Option One**
That Council:

- (i) Approve the proposed annual cycle of meetings attached at Appendix 1;
- (ii) Approve the following decision-making process to deal with any urgent business during the August recess:
 - a. the Leader and Deputy Leader in conjunction with appropriate Cabinet Members and Officers deal with any urgent items from 1st - 31st August 2023 (i.e. a Special Meeting of the Cabinet would be convened at short notice recognising that the matter was urgent and the call-in procedure would apply). The Chief Executive / Head of Paid Service in conjunction with the Leadership would determine if a matter was urgent; and
 - b. decisions should be limited to urgent matters and recorded on a decision schedule presented to the next Ordinary Meeting of the Council. No controversial or sensitive matters should be dealt with during this period.

Option Two

That Council:

- (i) Consider and suggest amendments to the proposed annual cycle of meetings attached at Appendix 1, prior to approval; and
- (ii) Approve the decision-making process for urgent business in the August recess as set out in option one.

4. Evidence of how this topic supports the achievement of the Corporate Plan / Statutory Responsibilities / Blaenau Gwent Well-being Plan

The report supports the Corporate Plan's priority 'An ambitious and innovative council delivering quality services at the right time and in the right place'. It also supports the requirements under the Local Government (Wales) Measure 2011 and the Well-being of Future Generations Act.

5. Implications Against Each Option

5.1 *Impact on Budget (short and long term impact)*

There are no costs related to the establishment of the cycle of meetings.

5.2 *Risk including Mitigating Actions*

There is a risk to organisational reputation and the decision-making process should the cycle of meetings not be approved.

5.3 *Legal*

Guidance is sought and provided by the Monitoring Officer when developing the Annual Cycle of meetings, as necessary.

5.4 *Human Resources*

There are no staffing implications associated with the proposals in the report.

6. Supporting Evidence

6.1 *Performance Information and Data*

Monitoring of each committee is undertaken by the Performance and Democratic Team and is used as an evidence base for making suggested amendments to future committee cycles.

- 6.2 ***Expected outcome for the public***
The Cycle of Meetings, when published, will enable the members of public to be aware of the schedule of meetings, to become involved in the democratic process.
- 6.3 ***Involvement (consultation, engagement, participation)***
The proposed Annual Cycle of Meetings has been developed in consultation with Elected Members and officers.
- 6.4 ***Thinking for the Long term (forward planning)***
The Annual Cycle of Meetings supports the decision-making process of the Council to deliver its business.
- 6.5 ***Preventative focus***
The Cycle of Meetings has been drafted to reflect organisational business with an aim to reduce the need to arrange ad hoc special meetings, unless this is required for urgent business.
- 6.6 ***Collaboration / partnership working***
The range of meetings in the cycle covers the spectrum of Council business various elements of which are done in collaboration both internally and externally.
- 6.7 ***Integration (across service areas)***
The range of meetings in the cycle covers the spectrum of Council business.
- 6.8 ***Decarbonisation and Reducing Carbon Emissions***
The modernisation of the democratic arrangements enables Members and officers to attend meetings without the need for travelling.
- 6.9 ***Integrated Impact Assessment (IIA)***
An IIA is not required for this report.
7. **Monitoring Arrangements**
- 7.1 The cycle of meetings is regularly monitored by the Performance and Democratic Team.

15.5 Urgent Decisions Outside the Budget or Policy Framework

- 15.5.1 The Cabinet, a Committee of the Cabinet or Officers or joint arrangements discharging Cabinet functions may take a decision which is contrary to the Council's Policy Framework or contrary to or not wholly in accordance with the budget approved by Full Council if the decision is a matter of urgency. However, the decision may only be taken:
- (a) if it is not practical to convene a quorate meeting of the Full Council; and
 - (b) if the Chair of the relevant Overview and Scrutiny Committee agrees that the decision is a matter of urgency.
- 15.5.2 The reasons why it is not practical to convene a quorate meeting of Full Council and the Chair of the relevant Overview and Scrutiny Committee's consent to the decision being taken as a matter of urgency must be noted on the record of the decision. In the absence of the Chair of the relevant Overview and Scrutiny Committee the consent of the Presiding Member and in the absence of both the Deputy Presiding Member of the Council will be sufficient.
- 15.5.3 Following the decision, the decision taker will provide a full report to the next available Council meeting explaining the decision, the reasons for it and why the decision was treated as a matter of urgency.

1. Purpose of the Report

The purpose of this report is to present the final regional Well-Being Plan for Gwent 2023-28 for consideration and comment, as part of the statutory consultation process. The Gwent Well-being Plan is attached at Appendix 1.

2. Scope and Background

- 2.1 The 5 PSBs in Gwent dissolved in September 2021, in favour of merging to form a regional Gwent PSB. This followed an Audit Wales report into the effectiveness of PSBs, which recommended (amongst other things) that PSBs develop flexible models of working such as merging. Merging was to provide a more simplified and streamlined model and closer alignment with other existing regional boards, such as the Regional Partnership Board and Safeguarding Board.
- 2.2 Local Delivery Groups of the Gwent PSB have existed within each local authority area in Gwent since the inception of the GPSB, to ensure the continued delivery of the 2018-23 Well-Being Plans, and to deliver locally against regional well-being objectives going forward. Blaenau Gwent's Local Delivery Group is known as the BG Local Well-being Partnership.
- 2.3 The Gwent PSB brings public bodies together to work to improve the economic, social, environmental and cultural well-being of Gwent. They are responsible, under the Wellbeing of Future Generations (Wales) Act 2015, for overseeing the development and delivery of a new regional Gwent Well-being Plan 2023-28, which is a long term vision for the well-being of the

area. Further information on Gwent PSB's purpose, aim, role and responsibilities can be found in the [Terms of Reference](#).

- 2.4 The Gwent PSB undertook a regional Well-being assessment which reviewed the social, economic, environmental, and cultural wellbeing in Gwent. The assessment used a wide range of qualitative and quantitative information including data, academic research, evidence, and people's views (engagement) to help understand Wellbeing in Gwent. The assessment took an asset-based approach, rather than focussing purely on need, to build upon and identify the strengths of both individuals and communities and it also identified problems and challenges that need to be addressed. The evidence and key issues identified in the assessment have been used to develop the Wellbeing Plan for Gwent.
- 2.5 The final Gwent Wellbeing Plan must be published 12 months after an election and is subject to a range of formal consultation and approval processes. The Partnerships Scrutiny Committee were a formal statutory consultee under Section 43 of the Wellbeing of Future Generations (Wales) Act 2015, and previously received the first draft of the Gwent Wellbeing plan for consideration and feedback on 14th October 2022, during the statutory consultation period for the draft plan.
- 2.6 This Well-being Plan is the first well-being plan of the regional Public Services Board, and it aims to set out the wellbeing objectives of the Gwent PSB and the steps it intends to take to meet those objectives.
- 2.7 Following the statutory consultation period, the Well-being Plan has now set out two key objectives for the region, informed by the data, evidence, and feedback from a broad range of contributors and audiences. The feedback has been considered and has helped to shape the two main objectives and five steps in the final draft of the plan. Much of the feedback centred around the need for more integrated steps to work towards achieving both new regional well-being objectives, as well as calling for more focus on housing and action to help tackle the Cost of Living crisis across our communities.
- 2.8 The two main well-being objectives are:
1. We want to create a fairer, more equitable and inclusive Gwent for all.
 2. We want to create a more climate-aware Gwent, where our environment is valued and protected, ensuring our well-being now and for future generations.
- 2.9 The five steps to achieve these two overarching objectives are:-
- Take action to reduce the Cost of Living crisis in the longer term
 - Provide and enable the supply of good quality, affordable, appropriate homes
 - Take action to reduce our carbon emissions, help Gwent adapt to climate change, and protect and restore our natural environment
 - Take action to address inequalities, particularly in relation to health, through the framework of the Marmot principles

- Enable and support resilient, connected, thriving and safe communities

2.10 The Gwent PSB will consider the final Gwent Well-being Plan in June 2023, after it has been considered by Gwent PSB member organisations during February – May 2023. The following statutory Gwent PSB organisations have all approved the new regional Well-being Plan as of mid-May 2023: Newport CC, Caerphilly CBC, Torfaen CBC, Natural Resources Wales, Aneurin Bevan University Health Board, and South Wales Fire & Rescue Service. Blaenau Gwent’s Partnerships Scrutiny Committee and the Gwent PSB Regional Scrutiny Committee both considered and endorsed the final Plan in late March 2023.

2.11 It is also worth noting that once the Gwent Wellbeing Plan has been signed off by the Gwent PSB, a local well-being delivery plan for Blaenau Gwent will subsequently be developed by the Blaenau Gwent Local Well-being Partnership (Local Delivery Group of the Gwent PSB) to establish delivery of the regional priorities at a local level, and to also deliver on well-being priorities that are unique to communities across Blaenau Gwent.

3. Options for Recommendation

Option One

The Council

- 3.1 I. Considers and endorses the Gwent Well-being Plan 2023-28

Option Two

The Council

- 3.2 I. Considers the Gwent Well-being Plan 2023-28;
 II. Provides additional comments and feedback for consideration by the Gwent PSB

4. **Evidence of how does this topic supports the achievement of the Corporate Plan / Statutory Responsibilities / Blaenau Gwent Well-being Plan**

The final Gwent Well-being Plan will apply to all LA areas across Gwent, including Blaenau Gwent, with opportunities for the Gwent PSB Local Delivery Groups to deliver against local priorities through their own local actions plans going forward. The Blaenau Gwent Council Corporate Plan 2022-26 makes a commitment to contribute towards the regional well-being objectives and the eight Marmot principles.

5. Implications Against Each Option

5.1 **Impact on Budget (short and long term impact)**

The Wellbeing Plan sets a strategic direction for the Gwent PSB. Specific projects to help achieve the wellbeing objectives will be developed once the plan is agreed. Where additional funding will be required, costed recommendations will be made to the appropriate decision maker.

5.2 **Risk including Mitigating Actions**

Failure to develop a well-being plan would lead to the Gwent PSB members not complying with the collective duties set out in the well-being of Future Generations (Wales) Act 2015.

5.3 **Legal**

Failure to develop a well-being plan by the end of June 2023 would lead to the Gwent PSB members not complying with the collective duties set out in the well-being of Future Generations (Wales) Act 2015.

5.4 **Human Resources**

The Policy and Performance Division supports the work of the PSB and BG Local Well-being Partnership and leads on supporting them on delivering their collective duties under the Act. The plan has been developed collaboratively with representatives from Gwent LAs and PSB partners. Regional collaborative work on drafting the plan was carried out via the Gwent Strategic Well-being Action Group (GSWAG).

6. Supporting Evidence

6.1 **Performance Information and Data**

As the steps in the Gwent Well-being Plan suggest, the Gwent PSB is continuing to work with Professor Michael Marmot and the Institute of Health Equity, based at the University College London, as part of the Gwent Marmot pilot region. This work will be embedded through activity and delivery of the plan, which will be aimed at reducing inequality and inequity between populations guided by the eight Marmot principles which encompass the determinants of wellbeing:

- Give every child the best start in life
- Enable all children, young people, and adults to maximise their capabilities and have control over their lives
- Create fair employment and good work for all
- Ensure a healthy standard of living for all
- Create and develop healthy and sustainable places and communities
- Strengthen the role and impact of ill-health prevention
- Tackle racism, discrimination, and their outcomes
- Pursue environmental sustainability and health equity together

There are also four overarching principles for delivering against the plan as a partnership during 2023-28:-

- Effectively working together

- Communication and engagement
- Welsh language and culture
- Performance management

6.2 ***Expected outcome for the public***

To ensure that the move to a regional PSB did not detrimentally impact on the local nature of well-being delivery that has been built up since the inception of the Act, the decision was made by the Gwent PSB to have the regional Plan underpinned by Local Delivery Groups (LDG) for each of the 5 Gwent Regions. The LDG for Blaenau Gwent is the BG Local Well-being Partnership.

It is expected each LDG will develop Local Action Plans to serve two purposes – to identify specific actions which will contribute at a local level to the achievement of the Regional Well-being Objectives and Steps; and to identify priorities and actions which are applicable to our communities in Blaenau Gwent. This will ensure the regional Well-being Plan is delivered in line with the local needs of Blaenau Gwent residents.

6.3 ***Involvement (consultation, engagement, participation)***

The Partnerships Scrutiny Committee was a statutory consultee of the draft regional Well-being Plan for Gwent during the 12-week statutory consultation period for draft Wellbeing Plans. This ran from 1st October – 31st December 2022.

The consultation period included feedback from PSB partners, stakeholder organisations, and residents. The Cost of Living crisis and housing were seen as the most important aspects of well-being, especially by communities, throughout the consultation process.

6.4 ***Thinking for the Long term (forward planning)***

The Well-being Plan takes consideration of the data and future trend information including the Gwent well-being assessment and public engagement on what people consider would make the area a better place for the future and have most positive impact on their well-being.

6.5 ***Preventative focus***

The Plan focuses on Prevention as one of the five ways of working, and outlines a series of Steps for taking preventative action to help achieve the each of the well-being objectives.

6.6 ***Collaboration / partnership working***

The Well-being Plan has been developed using a collaborative approach with involvement from the 5 LAs and a variety of stakeholders and partner organisations across Gwent.

6.7 ***Integration (across service areas)***

The Well-being Plan follows an integrative approach that considers each of the five ways of working (including integration), and notes opportunities for

integration between the well-being objectives and with the Marmot principles. Council services and public service partners

- 6.8 ***EqIA(screening and identifying if full impact assessment is needed)***
Equality and Human Rights are specifically identified as key consideration in the statutory guidance Shared Purpose: Shared Future 3 - Collective role (public services boards). As a consequence, the process of developing the Plan has taken into consideration the equality requirements through the development of the supporting Gwent Well-being Assessment and statutory consultation.

7. **Monitoring Arrangements**

The Local Delivery Groups, through their local delivery plans, will ensure that any local issues and concerns are addressed and align to the Gwent Well-being Objectives. They will also extend membership of working groups to relevant local organisations. Any specific arrangements can be scrutinised at a local level by the appropriate local authority scrutiny committee.

Introduction

Welcome to the first Well-being Plan for Gwent, setting out how we are working together to respond to some of the key issues identified in our most recent Well-being Assessment. As part of planning for the next 25 years, and beyond, this five year plan sets out what we will be doing to improve well-being across the region, now and for future generations. Many of the issues we know that affect the well-being of a region will take more than a few months or even years to solve, so the plan has tried to look for longer term solutions which may take a bit longer to show results. There will, of course, be things we can do in the short term, but those will need to help deliver benefits in the years to come.

The Well-being of Future Generations (Wales) Act established Public Services Boards, more commonly known as PSBs, for each local authority area to work together to improve well-being in their area. PSBs are made up of senior leaders from the Local Authority, the Health Board, the Fire and Rescue Service and Natural Resources Wales. A number of other organisations are also invited to join the PSB, such as the Police Service, the Police and Crime Commissioner and the voluntary sector.

In September 2021 the five PSBs in Blaenau Gwent, Caerphilly, Newport, Monmouthshire, and Torfaen came together to form the Gwent PSB, working across the region, and locally. This decision was made to simplify and strengthen the existing partnership arrangements by bringing all the public services together. The move to a regional PSB, with collective responsibility for improving well-being, makes it easier for partners to actively get involved, to add value and avoid doing the same thing several times.

The Well-being Assessment for Gwent, published last year, showed that inequality and deprivation in our communities and the need to take action on the climate and nature emergencies were having an impact on well-being. This Well-being Plan outlines how we, the PSB, will work together to tackle the social, economic, environmental and cultural issues which can affect well-being in Gwent.

Public Services Board Membership

WPEB

How our plan was developed

We used the new Well-being Assessment to identify the issues which had the most effect on well-being, and where we could achieve more by working together than working alone and making better use of the resources we have. This is often known as 'added value'. We identified these issues:

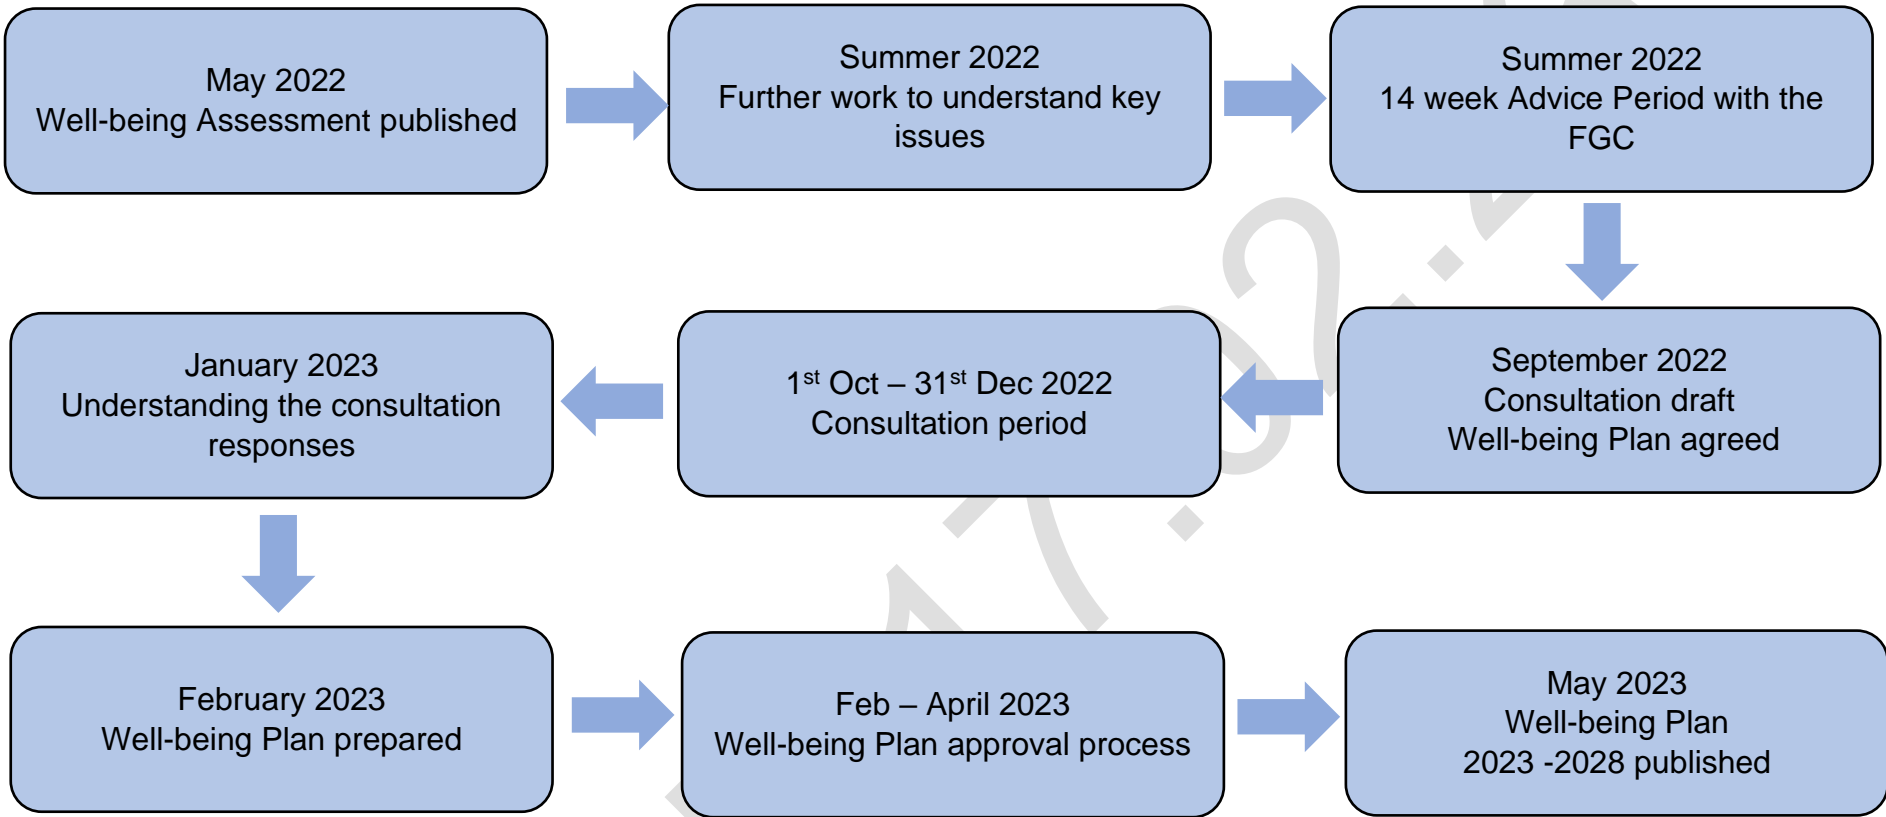

- Health inequalities and well-being (including housing)
- Community cohesion (including community safety and substance misuse)
- Environment (including climate and nature emergencies)

Over the summer of 2022 more work was done to get a better understanding of these issues and how they affected our communities. This involved pulling on a wide range of knowledge and experience, including from the Future Generations Commissioner's office, learning from others and examples of good practice from across Wales and beyond. The Future Generations Report was another source of information about what the future might mean for things like jobs or flooding.

The draft Well-being Plan for Gwent went out for consultation in October 2022. It had three objectives, each with several supporting steps. Full details of the consultation process can be found in Appendix 1. (To come)

Following the consultation the responses were assessed and analysed. The responses came from five sources: the survey, community events, stakeholder events, statutory consultee responses and individual written responses. To understand what the most important issues were for people the issues raised in the consultation were then ranked according to how many of the response sources commented on each one. These became the objectives and steps in this Well-being Plan. We will continue to use the information from the consultation as we develop each step's delivery plan in the Plan as well as continuing to engage communities and groups in our work going forward.

Timeline

Five Ways of Working

Just as when we were preparing the Well-being Assessment, we have used the five ways of working, collaboration, integration, involvement, long-term, and prevention, to guide our work. This means that while considering how to improve well-being in our communities now, we've also looked at how well-being could be affected in the future and how we can prevent issues becoming worse. We will need to work together to see what we're each doing in a community and how this affects what we do, individually and in partnership. Finally, but most importantly, we want our communities, professionals, businesses, and others to identify the issues which are most important to them. As we develop how we will be delivering the Objectives and Steps (regional and local delivery plans) we will continue to use these principles to guide our work.

Figure 1: The 5 ways of working from the Well-being of Future Generations Act

Seven Well-being Goals

The actions in this Well-being Plan must contribute to the Well-being Goals for Wales. Together they show the Wales we'd like for the future and cover all aspects of well-being. Each of the goals are as important as each other, although this plan may do more for one goal than for another.

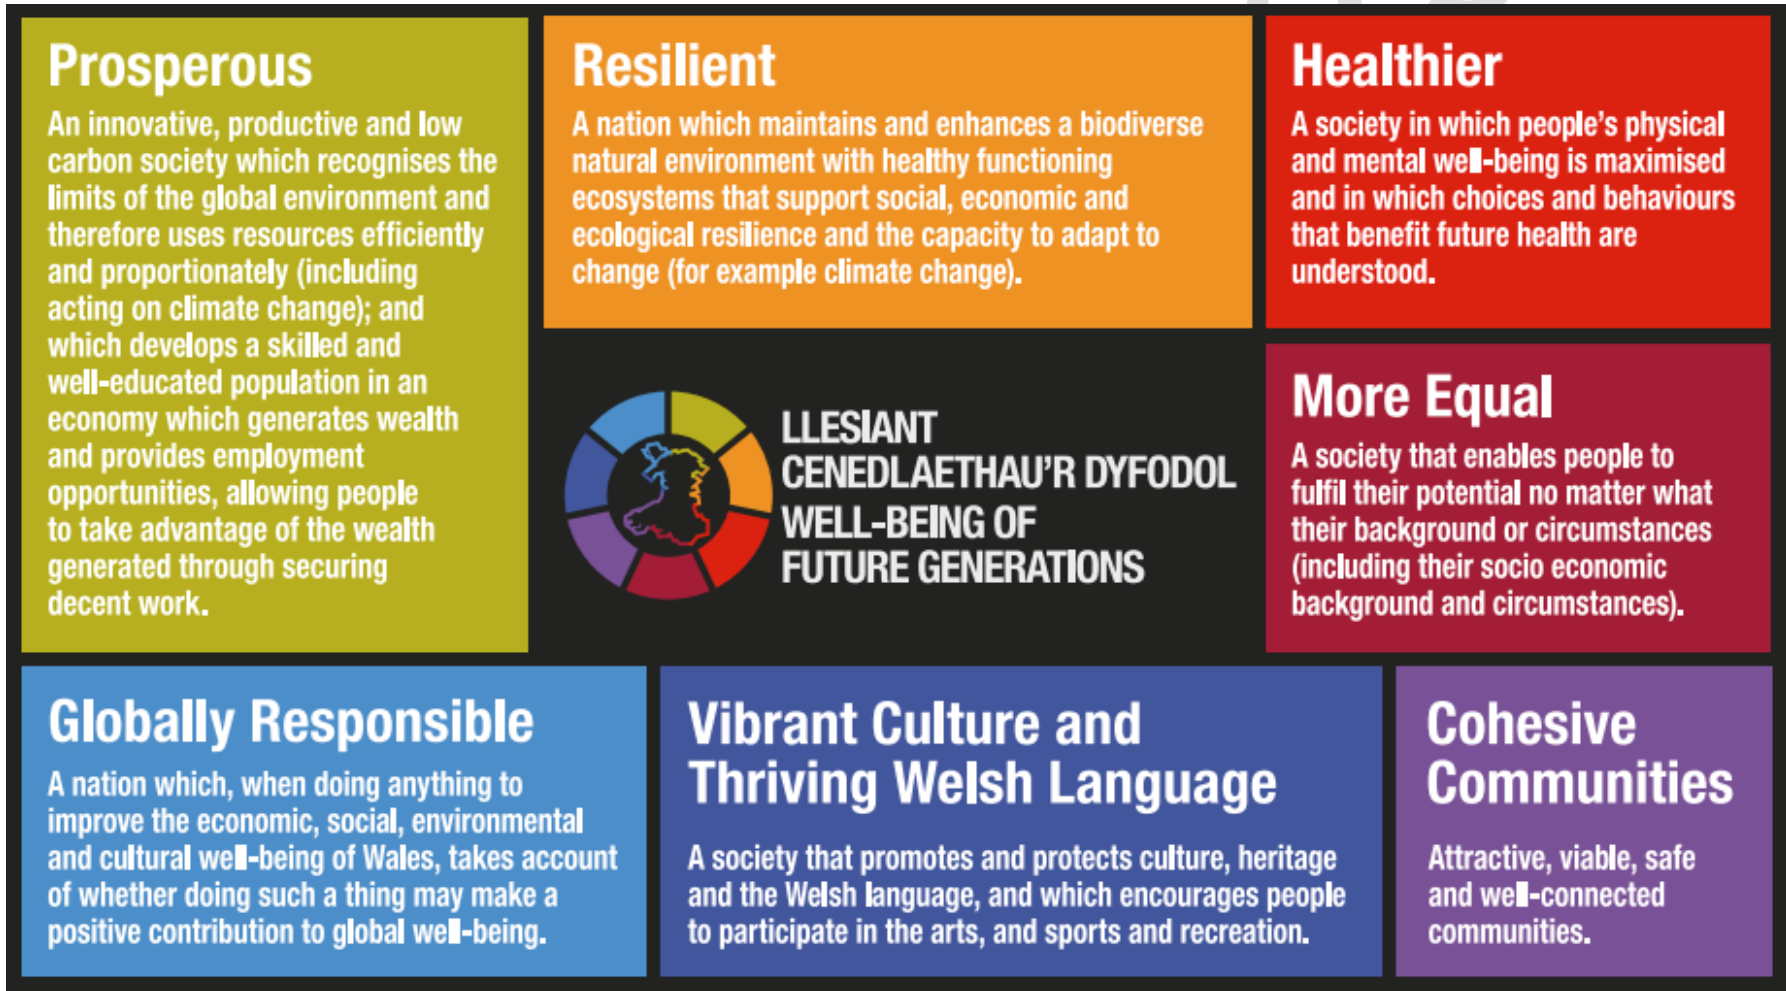

Figure 2: The 7 Well-being Goals from the Well-being of Future Generations Act

The Marmot Principles – Building a Fairer Gwent

Recognising the inequality that exists in our communities, identified in the Well-being Assessment, the Gwent Public Services Board has agreed to become a 'Marmot region' using this collaborative approach to undertake evidence-based action to reduce inequalities in Gwent. The Marmot Principles provide a framework to inform the actions to respond to the challenges faced across Gwent. This will re-focus and accelerate progress towards reducing the root causes of health and related inequalities across Gwent. As part of this, the PSB will use the eight Marmot Principles, alongside the Objectives and Steps, to shape the delivery of this Well-being Plan.

Eight Marmot Principles

1. Give every child the best start in life
2. Enable all children, young people, and adults to maximise their capabilities and have control over their lives
3. Create fair employment and good work for all
4. Ensure a healthy standard of living for all
5. Create and develop healthy and sustainable places and communities
6. Strengthen the role and impact of ill-health prevention
7. Tackle racism, discrimination, and their outcomes
8. Pursue environmental sustainability and health equity together

The Institute of Health Equity is producing a report for the PSB detailing the actions needed to tackle inequity across Gwent. As the delivery plans are developed this report will help to guide our work. The report, Appendix 2, is due to be published in June 2023.

Overarching principles

As a new PSB we have agreed that there are some things that we would all want to sign up to. These aren't Objectives or Steps but they are the things that will make us work more effectively together and make the positive changes we want for Gwent. They are our Overarching Principles, our ways of working, and reflect the five ways of working in the Well-being of Future Generations Act.

Effectively working together

Public Services Boards were established to promote better joined up working and a better understanding of how the different organisations contribute to the well-being of an area. We must make sure that what we do isn't making it more difficult for others to do what they need to. We should be sharing knowledge, expertise, and resources whenever possible and avoid doing the same thing many times over. There will be things that are best done by one or two partners, but where working together is the best option, we will do this. This Well-being Plan is about the things we can do better together, the 'added value'.

Communication and Engagement

While we have been developing the Well-being Assessment and Plan we have tried to engage with people and communities. We know we haven't always been as successful as we would have liked to be, and the Covid-19 restrictions have made it even harder to meet you. As we continue to develop and deliver this plan we want to keep talking with you, to understand your concerns and ideas. We also want to work with our communities, when we can, to create local solutions that contribute to the regional ones.

A full report about the Plan's consultation is available here [hyperlink]. If you'd like to be involved in the future, either just to be kept informed, or to be more involved where possible, please contact: GwentPSB@caerphilly.gov.uk

Welsh language and culture

A Wales of Vibrant Culture and Thriving Welsh Language is one of the goals in the Well-being of Future Generations Act. Each of the seven well-being goals describes an aspect of the Wales we want for the future, and they are all interlinked. The Welsh language forms a part of, and plays a part in all aspects of employment, education, culture, health and social care, community cohesion, the economy and more.

Being able to use the Welsh language is a valuable skill in all parts of life across Wales. It is also a key part of Wales' cultural heritage. Each of the PSB members have a statutory duty to promote the Welsh language, but together we will encourage the increase in the use of Welsh by; using it more with each other, consulting more in Welsh and producing more of our information bilingually, rather than just our main documents.

The PSB organisations are major employers and together we can promote opportunities for our staff and workforce to learn and use the language. Schemes like 'Helo Blod,' can be used by the PSB to promote the Welsh language together as members. The Welsh language is also a central part of the community services such as health, social and primary care. 'More than Just Words' aims to improve the service for social services, health, and social care. The PSB will continue to use media and social media through both languages and look at how else it can encourage the use of the Welsh language in all its activities.

Performance management

We need to know whether what we're doing is making a difference. We have agreed to have a single 'performance management' process, which will show us how well-being is improving. The indicators will be included in the Step Delivery Plans to make sure that we're looking at the right things. The annual reports will include how much progress we've made against these key measures. The PSB will need to take responsibility for ensuring that we're making the progress we've agreed we need to make.

Because the PSB is all about partnership working, we will also need to share the information we each have around issues. Each of our organisations is collecting data all the time, and there's also research and information coming from universities, Government agencies, the Census and a range of other places. All this information will be useful to the PSB, and the individual member organisations and we need to find a way of being able to share that safely and efficiently.

Our Well-being Objectives

Using the evidence in the Well-being Assessment, the PSB has identified two interconnecting objectives (what we want to achieve). These will set the direction for our work for the next five years and beyond.

We want to create a fairer, more equitable and inclusive Gwent for all.

The latest Well-being Assessment showed that although our communities are strong with many people feeling connected to their neighbourhoods and proud of their surroundings, the inequalities that exist in our communities have the potential to impact on all aspects of well-being both at a personal and community level. There are also a range of challenges that could potentially widen these inequalities in the future and impact negatively on well-being. People who live in more deprived communities have fewer years of life that are free from ill health and are more likely to have shorter lives. Children from deprived households get poorer school results; limiting their opportunities and increasing the risk that poverty will be passed from one generation to the next. Some people in our communities are experiencing in-work poverty with the amount of spare money they have after paying their bills making it difficult to afford food, transport, energy and to be digitally connected – especially as costs increase.

Many people still feel unsafe, lonely or alone. Widening economic, health, well-being and other inequalities have affected community cohesion, safety and empowerment. The assessment tells us that home ownership is already unaffordable for many low-income households, and as house prices rise more pressure is put on our social housing stock. Future Gwent will also need more housing stock that meets the needs of an ageing population and changing family structures and is resilient to a changing climate.

The Covid-19 pandemic, the cost of living crisis, the UK's exit from the EU, the war in Ukraine, and the increasing impacts of climate change, make the lives, livelihoods, health, safety and well-being of the people of Gwent even more challenging. If action isn't taken, this will lead to poorer health and well-being because of increased deprivation, substance misuse, mental health problems, civil disorder and crime, and antisocial behaviour. Evidence is already showing this will impact the health and well-being of already disadvantaged people and communities the most, who will need additional focus and support.

We want a climate-ready Gwent, where our environment is valued and protected, benefitting our well-being now and for future generations.

The latest Well-being Assessment showed that Gwent's countryside, coastline, rivers and urban greenspaces are not all in good condition, Many of our plants and animals are in decline. This drop is, in turn, making it more difficult to deal with challenges such as climate change, poverty and inequality. The 'green economy' could provide jobs in the industries of the future such as renewables, energy efficiency and decarbonisation and supporting good health. Many of the unsustainable approaches that are putting pressure on our natural resources are also causing the climate to change. We need Gwent's natural resources to be resilient to the impacts of a changing climate including more extreme weather events. There will also be challenges associated with transitioning to a low carbon future, and we will need to consider the whole energy system – heat, power and transport. Whilst projections of milder winters associated with a changing climate may help to reduce fuel poverty, we know that much of our housing stock has poor thermal efficiency and will be challenging to retrofit.

For us to enjoy the benefits that nature can provide, our natural areas must be healthy and able to withstand threats and disturbance, such as climate change, urban development and pollution. This will require us all to work differently and really understand how we interact with our environment and the impacts we're having.

To do this we need to change our food, energy and transport systems so they work better for nature and for us, reducing climate change and protecting the resources our future generations will rely on. Developing the 'green economy' could provide local jobs in the industries of the future such as renewables, energy efficient housing and decarbonisation. Increasing the supply of locally grown food is better for nature, our health and reduces pollution. If we change how we travel around Gwent we can reduce carbon emissions, benefit local wildlife and our well-being.

Steps

We have identified five steps that will help us to achieve our two well-being objectives. Delivery plans for each step explaining what will be done in the short, medium and longer term, who will do it and by when, will be developed during the first year of the plan using the five ways of working as a framework. These will be published as part of the first annual report. Work may begin on delivering some steps before the delivery plans are completed if it can be, especially if we already have the information we need to take action. The delivery plans will be complemented by local action plans at a county level. These will be written by Local Delivery Groups, which mirror the membership of the PSB but at a more local level.

Take action to reduce the cost of living crisis in the longer term

Although the cost of living crisis began after the Well-being Assessment was completed, we know that it is likely to make the poverty, deprivation and inequity in our communities worse and can increase crime and antisocial behaviour. Voluntary and community groups, councils and others are already providing support to many and will continue to do what they can.

While dealing with the immediate issues we must make sure that what we do now doesn't make things even harder in the future. The right training and skills will enable people to get decent work with pay that helps them to provide for their families. The growth in local renewable energy production and use, could provide better jobs, a cleaner environment and potentially cheaper energy for everyone. The need to make our homes and businesses more energy efficient and better insulated, will offer opportunities for local social enterprises and traditional businesses.

Technological changes will mean that services can be provided differently, as we saw during the pandemic, with services provided virtually or closer to home, offering alternative travel options and reducing pollution. We will need to make sure that any changes in the way people access services is designed around their needs and uses new technology to support those. Local food production will help people be able to eat healthy, more affordable food as well as providing opportunities to share their knowledge, and failures, with others. More local food production also helps to reduce the impact on the environment and is less prone to supply disruption.

Provide and enable the supply of good quality, affordable, appropriate homes

Having a home is central to a person’s well-being. It means they can get a job, an education, the help and support they may need and allows them to feel part of a community or neighbourhood. Homes can be owned by the person living in them, rented from the council, a housing association, or a private landlord. How many homes are rented or owned is different across the region, as are the costs of buying or renting a home. The Well-being Assessment showed that the average house price in Monmouthshire is around three times that in Blaenau Gwent. Being able to afford to pay the rent or mortgage is only part of the story.

The cost of living in that home has also been increasing and many homes could be much more energy efficient, tackling both climate change and fuel poverty. As Wales moves towards being carbon neutral the need to make homes more energy efficient and better insulated is becoming more important. Insulating homes should help people to stay healthier for longer, help to reduce energy use and therefore costs, provide good quality local jobs as well as helping to protect the natural environment around the world.

Homes need to be in the right place to support individuals and the community, with access to local shops, workplaces, schools, health care, cultural and leisure activities, and transport. We know that as the climate changes there are likely to be more floods, storms, heatwaves and other weather events and homes need to be able to cope with those. Communities are changing, with more blended families, older people and people living alone, so housing needs to be adaptable and suitable for those changes.

The consultation showed that having good quality, affordable housing was an important issue for our communities. How housing is provided is very different across the region. The PSB wants to work together to improve the quality of homes in Gwent, but it will take some time to identify work we can do together because of the different rules and funding available to the different organisations.

Health

Communities

Contribution to the national Well-being Goals

Prosperous	Resilient	Healthier	Equal	Cohesive	Culture & Language	Global

Taking action to reduce our carbon emissions, help Gwent adapt to climate change, and protect and restore our natural environment

Protecting the environment for future generations is one of the greatest challenges of our time. The land, air, water, trees, plants, animals, and insects provide us with everything we need to live. However, our need for new homes and workplaces, renewable energy, recreation, and food production are putting nature under pressure. Without a healthy environment across Gwent there can be no well-being benefits for our communities.

The effects of climate change are being felt in our communities through flooding and heat waves. The Welsh public sector is committed to become carbon neutral by 2030. We must reduce Gwent’s carbon emissions by increasing our use of renewable and sustainable energy sources, increasing availability of local food, reducing waste, and changing how we travel around Gwent. We want to support our communities to adapt to the impacts of climate change, recognising that some communities are more exposed to floods, heatwaves, air pollution and other climate risks to health.

We need to better manage the demands on Gwent’s natural environment and protect, connect and restore nature. We’ll support community green/blue space initiatives which bring communities together, especially in areas of Gwent which have least access to local, quality outdoor spaces for health and well-being. Whilst focusing on the immediate needs across Gwent, we’ll also ensure our decisions consider future trends, and don’t make things even harder for future generations.

-------------------	------------------	------------------	--------------	-----------------	-------------------------------	---------------

Take action to address inequities, particularly in relation to health, through the framework of the Marmot Principles

People’s health and well-being is affected by many things, clean air, water, and food, being able to get decent work, a suitable home, having local shops, access to culture and leisure activities, a quality education, good transport and social networks as well as health information and care. Where someone lives and how much money they have impacts on their health and happiness, it can lead to poorer health and less opportunity to thrive in life.

The Gwent PSB has agreed to use the framework of the eight Marmot Principles, developed by Prof. Sir Michael Marmot and his team at the Institute of Health Equity, which focus on the central issues that affect fairness, health and well-being. This approach will help to identify how to address the root causes of poor health and inequity across Gwent. The Institute of Health Equity is writing a report, using the evidence from the Well-being Assessment, the consultation responses, and their experience of working in other areas across the UK, to make recommendations for how the Gwent PSB and other regional partnerships, can take action to reduce inequities across Gwent. This report will form the basis of the action plan for this step.

Communities

Contribution to the national Well-being Goals

Prosperous	Resilient	Healthier	Equal	Cohesive	Culture & Language	Global

Enable and support people, neighbourhoods, and communities to be resilient, connected, thriving and safe

During the Covid-19 pandemic, communities across Gwent pulled together to support each other in times of need. But the cost of living crisis and the war in Ukraine have made existing inequities and poverty worse, with crime and antisocial behaviour increasing as people find life harder. We also know that there are some people, or communities, living in the region that don't feel as welcome, safe, or supported as they should. This could be because they are old, sick, at risk from flooding, domestic violence, drug misuse or racism. Many of these issues have been there for decades, with poor housing, health, and jobs, making it harder for people to improve their well-being.

Thriving communities need safe, affordable, suitable homes, access to sports, leisure, and cultural activities, with opportunities to get involved through paid work or volunteering, and in the language of their choice. There are historical buildings and areas across Gwent that could be used as community resources for local arts programmes and other activities, providing an opportunity to promote and share knowledge about the local heritage, history, and culture.

Communities need decent, reliable transport that enables people to access services, get to decent work, attend events, or visit family and friends, safely, cheaply and in a low carbon way. The beautiful countryside provides the space for exercise and recreation for people of all ages, benefiting their physical and mental health and providing opportunities to reduce the effects of extreme weather events, caused by a changing climate.

What happens next?

During the first year of this Plan we will be preparing detailed delivery plans at a regional and local level. Working with our Local Delivery Groups, other partnerships, communities, Community Councils, voluntary groups, and others, we will get a better understanding of what needs to be done and how best to do it. These delivery plans will form the basis of the first annual report, along with updates. There may be things we can do in the short term, such as finding out more about how something similar has been done before or declaring a nature emergency or promoting fair pay within our organisations. But we must make sure that these support our long-term objectives and the steps we have identified.

Pursue environmental sustainability and health equity together	✓	✓	✓		

Connections with other Partnerships and Plans

Across the Gwent region, and beyond, there are a number of other partnerships and initiatives which will make a difference to people and rather than repeat what these groups are doing, the Gwent PSB will look to work with them to deliver its objectives for Gwent.

Local Delivery Groups

In each of the local authority areas which make up the Gwent region, Local Delivery Groups (LDGs) have been set up to deliver the PSB's objectives at the local level. Their membership is similar to that of the PSB, with additional local representation. Activity to deliver the objectives may look different in different areas and the LDGs will be able to better connect with and draw on local expertise and groups to provide a local flavour. In time these groups may want to deliver their own action plans creating a link between local and regional priorities and action.

Regional Partnership Board (RPB)

The Gwent RPB brings together the health board, local authorities and the voluntary sector to ensure effective services, and care and support is in place to best meet the needs of the people of Gwent. The priority areas they need to work on are services for: older people with complex needs and long-term conditions, including dementia; people with learning disabilities; carers, including young carers; Integrated Family Support Services; children with complex needs due to disability or illness. The RPB must write a Population Needs Assessment and an Area Plan. These complement the Well-being Assessment and this Well-being Plan. The PSB will support the work of the RPB, and they will support our work, but we will make sure that we're not duplicating each other's work.

Building a Fairer Gwent – a Marmot Region

A Marmot Region is a network of local stakeholders committed to tackling inequity through action on the social determinants of health – the social and economic conditions which shape our health with action framed within eight principles. Becoming a Marmot Region demonstrates that we want to work together at a senior level to improve equity across Gwent, and improve the lives of all our communities.

Safer Gwent - Community Safety Partnership

Safer Gwent, is a regional multi-agency Community Safety Partnership (CSP), made up of statutory bodies under the Crime & Disorder Act, and wider partners who have a key role in addressing the community safety portfolio. Safer Gwent aims to carry out, on behalf of the Gwent PSB, the oversight of regional community safety issues and quality assure the coordination of regional activity to support local CSP delivery. In addition, Safer Gwent is uniquely positioned to take forward the Gwent PSB community safety & cohesion priorities, whilst ensuring that the PSB is fully cited on and able to respond to issues identified within the annual community safety strategic assessment.

Cardiff Capital Region

The Cardiff Capital Region (CCR) is a collaborative partnership comprising the ten Local Authorities that make up South East Wales and represents almost half the population of Wales. The CCR delivers a wide range of regeneration and investment projects, managed by a dedicated team and a ring-fenced £1.2bn investment fund, through the Cardiff Capital Region City Deal, which aims to deliver 25,000 new jobs and generate an additional £4bn of private sector investment by 2036. The CCR's high-profile projects include: the £50m Innovation Investment Capital fund, supporting business to scale up; the £50m Sites and Premises Fund, developing new sites to support the delivery of their Industrial and Economic Plan; the £10m Challenge Fund, supporting Local Authority innovation to accelerate decarbonisation and transform communities; the Homes for the Region programme to deliver 2,800 new homes; and several Metro projects transforming public transport infrastructure across the region.

Strategic Corporate Plans

These are the plans each of the organisations that make up the PSB have for what they are going to do over the next 3 – 5 years. These have different names in different organisations but they all set the high level direction for that organisation including their own Well-being Objectives which need to align to those of the PSB.

Area Statements

The South East Wales Area Statement (SEAS) informs internal and external planning across Gwent and helps stakeholders (including the PSB) consider different ways of working together.

The Area Statement process helps explore and shape aspirational ways of working. It has 4 themes: Linking Our Landscapes, Climate Ready Gwent, Healthy Active Connected and Ways of Working. The collaborative actions identified under each theme are underpinned by best available evidence, local knowledge and understanding gathered throughout the development of the SEAS. The outcomes under each of the four strategic themes will deliver the Area Statement vision for South East. This vision has been developed collaboratively over the course of the Area Statement process and is underpinned by what specialists and wider stakeholders want to see in Gwent.

Greater Gwent Nature Recovery Action Plan (GGNRAP)

The GGNRAP is a strategic framework, aiming to halt and reverse negative biodiversity trends, aligning national policy and legislation, informed by evidence including the Greater Gwent State of Nature Report 2020 Greater-Gwent-State-of-Nature-4-002.pdf (monlife.co.uk), the South East Wales Area Statement and Gwent Well-being Assessments. It is intended to be used by public bodies and organisations which operate at a regional level across the Greater Gwent area, including those on the Gwent PSB, to support better involvement that drives positive change and collaborative action together, long term. It is also a guide for the Local Nature Recovery Action Plans which focus more on local action to promote biodiversity in each Local Nature Partnership area found within Gwent.

Third Sector Partnership Agreement

The Third Sector Partnership Agreement between the Gwent PSB and the wider third sector recognises the mutual benefits that can be gained from close co-operation between the statutory partners and third sector across the Gwent PSB landscape. It builds on previous local versions and sets out guidelines for how all parties should work together. Partnership Agreements with the third sector have been identified by Welsh Government as good practice.

Participatory budgeting

Funding has been made available to the five Gwent Local Authorities to lead participatory budgeting programmes in their areas. The authorities are currently at different stages of development and with differing levels of investment. Some local authorities have now completed one or more programmes. Initial feedback has suggested participatory budgeting is effective in distributing funding to community groups, can help achieve wellbeing objectives, can generate high levels of participation and is well received. Public Health Wales are leading a review of participatory budgeting undertaken across Gwent, to inform and improve future use of this approach.
