Headline updates:

Across Children's and Adult Services, we have maintained the majority of our services throughout the pandemic and prioritised home visits to safeguarding investigations, children on the Child Protection Register, Children Looked After, care leavers, those children on the 'edge of care' and have continued to discharge patients from hospital (including those recovering from COVID-19) and any emergency assessments. However, Adult Services at the outset of the pandemic had to close our day services and respite care facility to ensure the safety of our most vulnerable people and to maintain social distancing, it also allowed us to ensure resources were concentrated at caring for people in their own homes and

care homes. We have successfully redeployed staff from community options and Flying Start to our care homes and home care teams to provide cover when staff became sick with Covid-19 or more residents required 1:1 support due to isolation.

Children's and Adult Services have been able to continue working throughout the pandemic outbreak to meet the needs of our children and families, in Adult Services we moved to 7 days a week to ensure we could react appropriately to the issues being faced i.e. getting recovering COVID-19 patients home, ensuring our care homes and domiciliary care agencies were being supported and provided with PPE and reacting and supporting our NHS colleagues to maintain bed capacity within the hospital system. This has meant our Adult Services staff working on the wards at our community and acute hospitals including on COVID wards.

Our Early Year's Child Care and Play Team have played a crucial role during the crisis. They have worked closely with colleagues in Education to ensure school/child care provision was available for keyworker staff and the most vulnerable children in the borough. The Early Years and Child Care Team have provided significant support to child care providers during COVID-19 which has played a large part in 64% of providers remaining open throughout the crisis. Three of our Flying Start children's hubs remained open for children of keyworkers throughout the pandemic.

We also supported the community hubs set up for those shielding and vulnerable in our communities, our community connectors and supporting people staff have been instrumental with corporate colleagues in delivering this service to vulnerable people in our communities.

6.2 ***Expected outcome for the public***

The key theme of the Social Services and Well-being Act is to promote the well-being of people who need care and support. Within the annual report it is highlighted where the Directorate has worked closely with the public to improve service delivery and user outcomes. Reporting provides the public with the opportunity to view progress of the Directorate and ensure accountability.

6.3 ***Involvement (consultation, engagement, participation)***

The Social Services and Well-being (Wales) Act 2014 looks to build and strengthen on existing arrangements by involving service users, carers and other key partners where possible in helping shape and influence future design of services.

6.4 ***Thinking for the Long term (forward planning)***

The Annual report enables the department to plan for the future as spend, risk and performance is continuously reported on and provides a baseline of where the department is currently and where it needs to be in the future.

6.5 ***Preventative focus***

The work undertaken by the department looks to promote a preventative approach to practice through early identification and intervention. Having an active rather than re active approach to service planning can also help with planning resources and not spending as much on services in the future.

6.6 ***Collaboration / partnership working***

Social Services work collaboratively across boundaries to benefit citizens requiring health and social care services across Gwent.

6.7 ***Integration (across service areas)***

The purpose of the SSWBA is to foster integration between Health and Social Services.

6.8 ***Decarbonisation and Reducing Carbon Emissions***

The workforce who deliver the functions of the SSWBA have adopted the agile working policy of the council which will have a positive impact on car emissions as staff are now able to work from home to undertake paperwork and do not have to travel to the office.

6.9a ***Socio Economic Duty Impact Assessment (complete an impact assessment to consider how the decision might help to reduce the inequalities of outcome associated with socio-economic disadvantage).***

All service provision and functions that sit under social services are subject to socio economic disadvantages for example, low income, material and area deprivation. All programmes work towards addressing these disadvantages.

6.9b ***Equality Impact Assessment (screening and identifying if full impact assessment is needed)***

The overarching vision is to support the needs of the most vulnerable children and adults in our communities through a range of early intervention, prevention and support mechanisms. With the aim of building resilient individuals, resilient families and resilient communities.

7. **Monitoring Arrangements**

7.1 The Annual Report for 2020/2021 will be monitored via quarterly monitoring reports to the Social Services Scrutiny Committee.
