5. Implications Against Each Option

5.1 *Impact on Budget (short and long term impact)*

- 5.1.1 The overall financial position as forecast at 30th September 2021 indicates an adverse variance of £283,128 against a total in year capital budget of £17.12m.

The overall position across all Portfolios is shown below: -

Total Approvals Q2 (Sept 2021)	Future funding	In year funding	Actual Expenditure to 30/09/2021 (Month 9)	Forecast Expenditure 2021/2022	Forecast Variance underspent / (overspent)
£000	£000	£000	£000	£000	£000
60,978	43,863	17,115	4,119	17,398	(283)

- 5.1.2 This report has identified significant overspends on the following projects:

- Household Waste recycling Centre - £42,752**
The overspend relates to increased costs due to the Covid-19 pandemic & future proofing of the site.
- Lime Avenue Business Park - £234,710**
The latest anticipated final account advises of a loss & expenses claim for items in relation to unforeseen issues caused by Covid-19 pandemic.

Discussions with funding bodies are ongoing to determine whether additional funding is available fund, therefore, at this stage it is not proposed that funding for these schemes be built in from the Capital contingency.

5.2 Risk including Mitigating Actions

- 5.2.1 Expenditure against external funding approvals needs to be maximised in order to avoid loss of funding. If significant delays in capital expenditure are anticipated or contract costs rise due to the impact of Covid-19 and inflation pressures, liaison with funding bodies will be required at the earliest opportunity in order to secure approval for funding re-profile.

- 5.2.2 If funding re-profile cannot be agreed and capital schemes are not kept within budget, then capital reserves may be committed beyond affordable levels, with the

consequence that projects that have not yet commenced may be deferred or not undertaken, so impacting upon future Capital Programmes.

- 5.2.3 If capital schemes do not achieve the required level of expenditure within the correct financial year and further peaks of the Covid-19 pandemic results in projects facing significant delay, funding may be lost to the Authority and be detrimental to the Authority's chances of securing future funding.
- 5.2.4 The aforementioned risks are mitigated as far as possible through close working relationship with Budget Holders, Technical Services and external funding bodies such as Welsh Government. This ensures that where possible, funding is maximised or funding amendments are secured should the need arise
- 5.2.5 Where overall funding approvals are likely to be exceeded and additional compensatory funding sources cannot be identified, budget holders will initially report the consequences to the Corporate Leadership Team, including proposals to defer/delete other approved schemes.
- 5.2.6 There is a potential risk of increase in Constructions costs & services following the ongoing situation regarding the UK's Exit from the European Union.
- 5.2.7 The UK's Exit from the EU has been added as an organisational risk to the corporate risk register, whilst a separate, more detailed high level action plan has been developed and is being monitored by the Core Planning Group.
