Comments made by driver A

I've looked at the proposed tariff and I think they should go up a little more because they only benefit the short distance fares, they in my opinion should go up per mile as well the £4 starting fee is ok but the per mile should go up as well from 20p per 1 tenth of a mile to 25pence per tenth of a mile fuel prices have shot up and if they continue to rise it will put a lot of us out of business.
