Developments of National Significance (DNS) – Status Update

Stage 1: Pre-Application

- Inception Meetings and Pre-Application Advice
- The developer publicises draft proposals, engages the local planning authority, affected communities and statutory undertakers to identify issues and exchange views.

NB: It is up to the developer to decide how they undertake early 'engagement'.

- · The developer submits notification of intention to submit a DNS
- Acceptance of notification by the Inspectorate (10 working days)
- Statutory pre-application consultation undertaken by the developer

Stage 2: Application

- Developer submits application with Consultation Report (validation 42 days for EIA cases and 28 days for all others)
- If the application is valid the Inspectorate publicises and consults on the application
 - · LPA prepares a Local Impact Report
 - The developer has 10 working days following close of consultation period to decide whether or not to amend the application

Stage 3: Examination

- An Inspector is appointed to 'examine' the application and determines the procedure
- Examination will be written representations, hearing or inquiry, or a combination of all three
- The appointed Inspector must consider all representations and any matters raised and writes a report to the Welsh Minister recommending whether planning permission should be granted or refused

Stage 4: Decision

· Application is determined by Welsh Ministers and a decision issued
