1. **A PROSPEROUS WALES** ... an innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.

The legislation seeks to enable potential purchasers and tenants to establish the energy costs of buildings they wish to buy or rent and encourages energy efficiency generally in all buildings including public buildings and new builds. Energy efficiency measures protect the environment, reduce energy costs long term and reduce the depletion of limited resources. Reciprocal arrangements as proposed, for enforcement in local authority owned buildings increases transparency and standardisation of approach and the independence and objectivity of enforcement decisions.

2. **A RESILIENT WALES** ... a nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change). Think about how your activity will have regard to protecting and enhancing biodiversity.

This proposal does not have a direct impact upon these matters however the principle underlying the Regulations is to make the energy efficiency of buildings transparent, inform occupiers and users about their building's or systems current energy performance and make recommendations on how to improve energy efficiency.

3. **A HEALTHIER WALES ...** a society in which people's physical and mental well-being is maximised and in which choices and behaviours that benefit future health are understood.

This proposal does not have a direct impact upon these matters.

5. **A WALES OF COHESIVE COMMUNITIES ...** attractive, viable, safe and well-connected communities.

This proposal does not have a direct impact upon these matters.

6. **A WALES OF VIBRANT CULTURE AND THRIVING ...** a society that promotes and protects culture, heritage and the Welsh language, and which encourages people to participate in the arts, and sports and recreation.

This proposal does not have a direct impact upon these matters.

7. **A GLOBALLY RESPONSIBLE WALES ...** a nation which, when doing anything to improve the economic, social, environmental and cultural well-being of Wales, takes account of whether doing such a thing may make a positive contribution to global well-being.

This proposal does not have a direct impact upon these matters however the principle underlying the Regulations is to make the energy efficiency of buildings transparent, inform occupiers and users about their building's or systems current energy performance and make recommendations on how to improve energy efficiency.
