

18 FEBRUARY 2019 MEETING

CARDIFF CAPITAL REGION REGIONAL ECONOMIC GROWTH PARTNERSHIP – INITIAL INDUSTRIAL AND ECONOMIC GROWTH PLAN

REPORT OF PORTFOLIOS LEADS FOR INNOVATION AND BUSINESS, COUNCILLORS HUW THOMAS AND PETER FOX

AGENDA ITEM: 9

Reason for this Report

1. To seek Regional Cabinet's endorsement of the initial Cardiff Capital Region Industrial and Economic Plan - as developed by the Regional Economic Growth Partnership in conjunction with the City Deal Office.
2. To seek Regional Cabinet's agreement to the publication of the initial Industrial and Economic Plan and its launch at a Cardiff Capital Region City Deal event at Wales in London Week on 28 February 2019.

Background

3. The Regional Economic Growth Partnership was established, amongst other things, to advise the Regional Cabinet on its funding decisions from the Wider Investment Fund. To this end the Regional Economic Growth Partnership, in conjunction with the City Deal Office, has developed an Industrial and Economic Plan that takes the principles and themes within the JWA Five Year Business Plan, the Welsh Government Economic Action Plan, and the UK government Industrial Strategy, and articulates a strategic industrial and economic framework for the region. This will guide and influence future investment recommendations made by the Regional Economic Growth Partnership to Regional Cabinet and provides a proactive means of engaging with both governments and its economic investment programmes, in line with documented competitive strengths.
4. The development of the Industrial and Economic Plan has been led by the Economic Growth Partnership and builds upon the Growth and Competitiveness Commission Report (2016), and more recently, input from a comprehensive 'Sectoral Analysis' (2018) led by Professor Max Munday at Cardiff University. It has involved consultation and input from stakeholders across the region from Business, Academia and the Public Sector. The draft Plan has also been posted on the City Deal website, Twitter and has been consulted upon via the Regional Business Council to bodies such as the CBI, Institute of Directors and Chambers of Commerce.

5. The Industrial and Economic Plan (contained in Appendix 1) is consistent with the JWA Five Year Business Plan, Assurance Framework and contextualises recent developments around the Investment and Intervention Framework. The Plan sets out a bold and ambitious approach to driving economic and inclusive growth in the region and provides a framework in which the City Deal programme can advance and deliver. It provides the foundations for the development and operation of the Intervention and Investment Framework, in order that programme and investment decisions are made in line with identified 'sweet-spots'. Whilst local leadership has been a central feature of its development, the Plan is industry led, evidence-based and grounded in furthering the competitive strengths of the region
6. The document is an initial one in that it provides a framework for further engagement and work with UK and Wales Governments to align with the Industrial Strategy (and Industrial Strategy Challenge Fund) and Economic Action Plan, respectively. This sends clear signals of intent about the approach to leveraging in wider investment, positioning for co-investment and additional value, opportunities and networks, demonstrating the role of City Deal as a catalyst and pump-primer. There is potential for a further iteration of the Plan in order to fit with Wales Government's emerging plans around regional economic development; and, for the Plan to contribute to a wider framework to be jointly agreed with Wales Government. This is especially important and relevant given Wales Government's new approach to 'Economic Regions' and the potential to establish a joint strategic framework and structure for economic development in the region. Conversations and initial development work has begun. However, as this will take a while longer, it is considered that with key events forthcoming such as Wales in London Week (February 2019); and, MIPIM (March 2019); the production of a new Annual Business Plan (2019-20); the launch of Wave 3 Challenge Calls under the Industrial Strategy Challenge Fund and engagement activity stepping up around pipeline opportunities – it is important that an initial Industrial and Economic Growth Plan is in place soonest.

Legal Implications

7. The Cardiff Capital Region Industrial and Economic Plan ('the Plan') refers to proposals to establish an investment and intervention framework that will contain three designated and interconnected investment priorities (Innovation, Infrastructure, and Challenge). Detailed legal advice will be required on the proposed framework as it is developed to ensure that it accords with the provisions of the Joint working agreement in relation to the delivery of the Cardiff Capital Region City Deal. It is understood that further reports on the proposed investment and intervention framework will be submitted to Regional Cabinet for approval.

Wellbeing of Future Generations Act (Wales)

8. In developing the Plan and in considering its endorsement regard should be had, amongst other matters, to:
 - (a) the Welsh Language (Wales) Measure 2011 and the Welsh Language Standards,
 - (b) Public sector duties under the Equalities Act 2010 (including specific Welsh public sector duties). Pursuant to these legal duties Councils must in making decisions have due regard to the need to (1) eliminate unlawful discrimination, (2) advance equality of opportunity and (3) foster good relations on the basis of protected characteristics. Protected characteristics are : a. Age; b. Gender reassignment; c. Sex; d. Race – including ethnic or national origin, colour or nationality; e. Disability; f. Pregnancy and maternity; g. Marriage and civil partnership; h. Sexual orientation; i. Religion or belief – including lack of belief and the Well Being of Future Generations (Wales) Act 2015.
9. The Well-Being of Future Generations (Wales) Act 2015 ('the Act') is about improving the social, economic, environmental and cultural well-being of Wales. The Act places a 'well-being duty' on public bodies aimed at achieving 7 national well-being goals for Wales - a Wales that is prosperous, resilient, healthier, more equal, has cohesive communities, a vibrant culture and thriving Welsh language and is globally responsible. In discharging their respective duties under the Act, each public body listed in the Act (which includes the Councils comprising the CCRCD) must set and published wellbeing objectives. These objectives will show how each public body will work to achieve the vision for Wales set out in the national wellbeing goals. When exercising its functions, the Regional Cabinet should consider how the proposed decision will contribute towards meeting the wellbeing objectives set by each Council and in so doing achieve the national wellbeing goals.
10. The wellbeing duty also requires the Councils to act in accordance with a 'sustainable development principle'. This principle requires the Councils to act in a way which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs. Put simply, this means that Regional Cabinet must take account of the impact of their decisions on people living their lives in Wales in the future. In doing so, Regional Cabinet must:
 - Look to the long term
 - Focus on prevention by understanding the root causes of problems
 - Deliver an integrated approach to achieving the 7 national well-being goals
 - Work in collaboration with others to find shared sustainable solutions
 - Involve people from all sections of the community in the decisions which affect them.

11. Regional Cabinet must be satisfied that the proposed decision accords with the principles above. To assist Regional Cabinet to consider the duties under the Act in respect of the decision sought, an assessment has been undertaken, which is attached at Appendix 2 (Well-being of Future Generations assessment) for Member's consideration.

Financial Implications

12. There are no direct financial implications arising from this report. Any future report brought forward in respect of funding decisions relating to the Cardiff Capital Region Wider Investment Fund will need to give due regard and consideration to matters set-out in the Joint Working Agreement and its associated Schedules, as well as Welsh Government's funding terms and conditions in respect of the HM Treasury Contribution.

Recommendations

It is recommended that the Cardiff Capital Region Joint Cabinet:

- i.) Endorse the initial Regional Industrial and Economic Growth Plan and agree to its publication
- ii.) Agree the launch of the Plan at a Cardiff Capital Region City Deal event at Wales in London Week on 28 February 2019.

Kellie Beirne
Cardiff Capital Region Director
18 February 2019

Appendices:

Appendix 1 – Final Industrial and Economic Plan
Appendix 2 – Wellbeing / Equalities Assessment

Background Papers

The following Background Papers have been taken into consideration:

- i) Report to Regional Cabinet of 14th July 2017 – REGP
- ii) Report to Regional Cabinet of 2nd May 2017 – Grant Funding Terms and Conditions
- iii) CCR City Deal Strategic Business plan Wider Investment Fund (JWA five year Business plan)
- iv) Joint working Agreement dated 1.3.17 in relation to the delivery of the Cardiff Capital Region City Deal (including the Assurance Framework)

01. Introduction

The Regional Economic Growth Partnership was established to advise on the implementation of the Cardiff Capital Region City Deal's Wider Investment funds. This Industrial and Economic Plan sets out an ambitious and long-term plan to boost productivity and accelerate economic and inclusive growth in the region by making the Cardiff Capital Region (CCR) a highly investable proposition, backing businesses to create good and sustainable jobs through targeted investments in skills, priority industries, infrastructure and innovation. This is a complete departure from siloed infrastructure and sectoral programmes of the past, and is a 20-year plan which will need to be flexible and adapt over time – it will be refreshed and updated periodically.

We are currently in an extremely dynamic and turbulent time with no more European Structural Funds, no more City Deals – the end of the allocation of public funds – and a move towards competing for funds and investments based on competitive advantage. This is a significant shift, moving away from a dependency culture to a competitive culture, where influence and excellence are core commodities. We will also need to embrace co-investment approaches, be more challenge focussed in our approach and explore what fiscal levers and incentives can be maximised to ensure the future productivity and prosperity of the region.

The purpose of the plan is to guide the deployment of funding, policy decisions, and targeted effort to ensure the future productivity and prosperity of the region. It sets out a route to future economic self-reliance.

In delivering sustainable and inclusive growth, we will address two mutually supportive objectives of boosting competitiveness and tackling inequalities. The introduction of inclusive and regenerative growth as central threads of the plan set out the case for delivering an economic agenda that drives sustainable economic growth and productivity across all of the region.

The CCR Industrial Plan is promoting a new way of working within the region, with UK Government, Welsh Government and local government working together and in partnership with the private sector, Higher Education and Further Education

institutions, third sector and other public sector bodies on boosting productivity and accelerating economic and inclusive growth. This will build on the foundations established in the CCR City Deal. Where appropriate, we will work with partners beyond the CCR in both the Swansea Bay Region, the South West of England and beyond where the critical mass across the partnerships will allow a greater strategic focus to improve productivity.

The role of government is to be a shaper of our region; to convene, facilitate and catalyse strategic interventions and investments that will deliver on our combine goals and objectives. Delivery of the plan will be a partnership between the private, public, education and third sectors.

The development of the CCR Industrial Plan has been led by the Economic Growth Partnership and has

involved partnership with the wider business community and government at all levels. It builds on the Growth and Competitiveness Commission Report (2016); is informed by the UK Industrial Strategy (2017), Welsh Government Economic Action Plan (2017) and two recent Science and Innovation Audits that cover the region – the South West England and South East Wales S&I Audit (2016) and the South Wales Crucible Audit (2018).

The Economic Growth Partnership is investing in data analysis capability to provide robust and reliable data on a series of economic and social indicators to better understand the performance of the region. This will ensure well informed decisions are taken in the delivery of the regional industrial and economic growth plan.

Our approach will be based on:

Cohesion

Policy collaboration and delivery partnerships ensuring that there is cumulative impact to the range of investments and interventions delivered by the City Deal.

Scale

Limited number of significant interventions, rather than a disparate range of loosely connected small-scale activities.

Leverage

Maximise the City Deal investments by attracting co-investors with complementary funding and resources.

Return on Investment

Demonstrable impact and benefit will be expected from all investments and interventions.

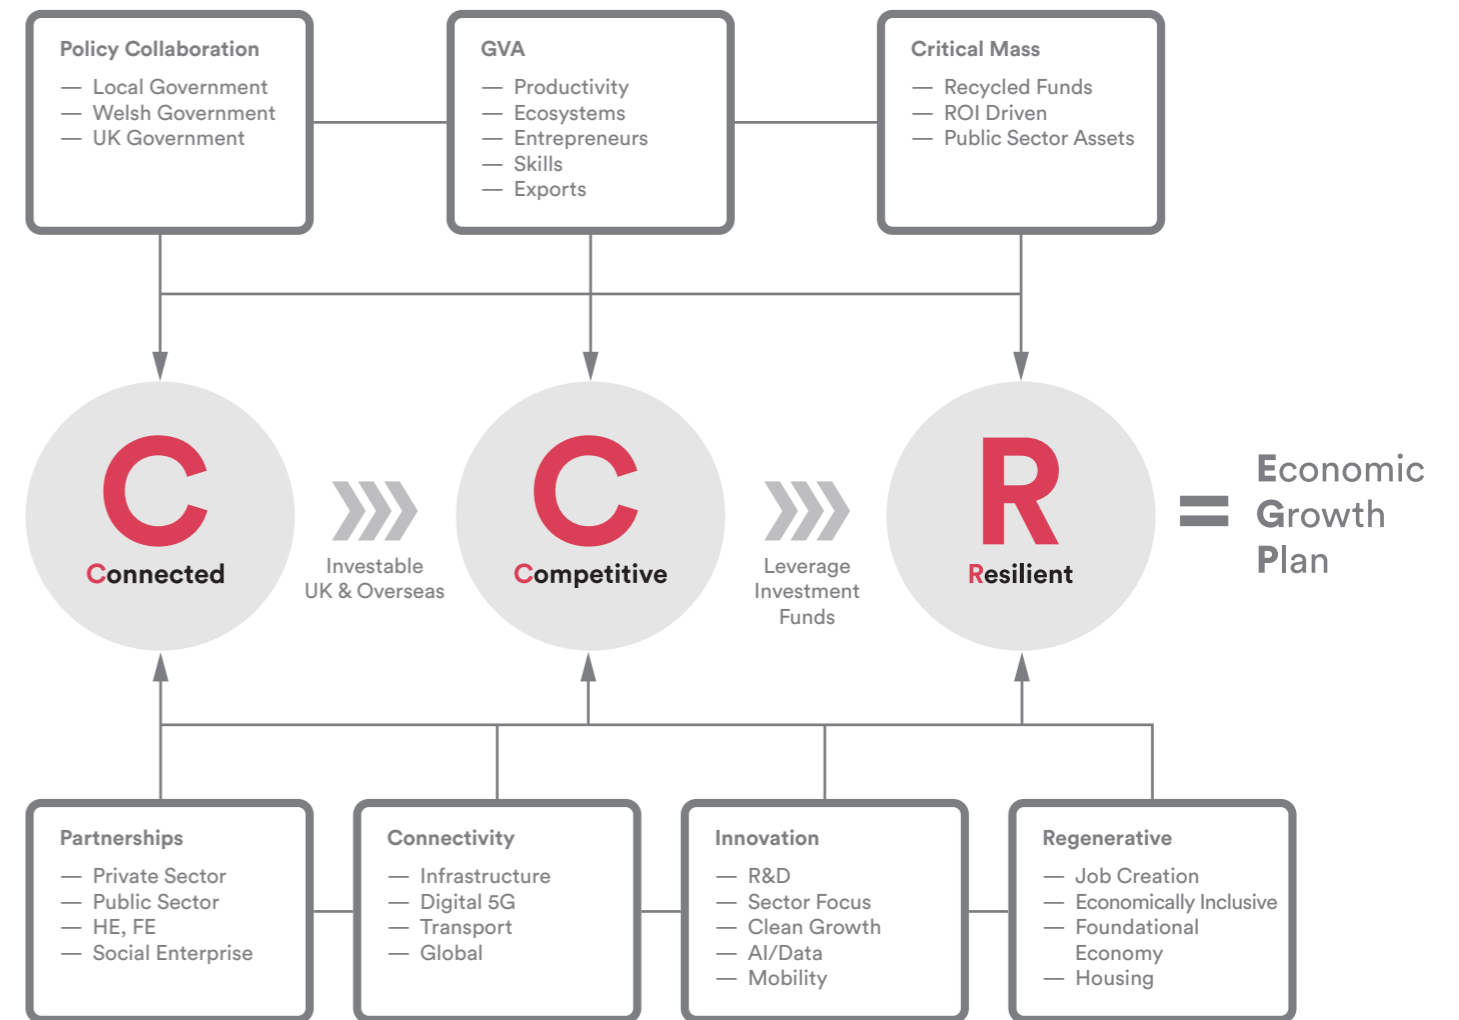

Ecosystem Development

Supporting the development of a strong economic and innovation ecosystem to deliver the plan and develop clusters of excellence within our region.

“We will address two mutually supportive objectives of boosting competitiveness and tackling inequalities.”

Title for diagram?

02. Overview of the Regional Economy

The CCR City Deal was agreed in 2016, and the Growth and Competitiveness Commission report set out a broad framework for an enabling approach that addresses the key issues of growth, inclusivity and sustainability. The Metro has been tendered, and a significant investment has been made in the Compound Semiconductor Foundry providing further stimulus to the development of the CS Cluster in the region. These investments sit alongside and are complementary to other investments made by the UK Government, Welsh Government, Welsh European Funding Office, and the Development Bank of Wales within the region.

The region is well skilled with a high proportion of the population with qualifications of degree level or equivalent, has a Capital City at its heart that has cultural and sporting facilities the envy of many other cities in the UK and further afield. The quality of life is second to none with great coastline, forests, parks and rivers, with the Brecon Beacons National Park nestling to the north of the region.

Whilst tentative progress has been made recently with a reduction in unemployment, and value added has risen, we have not seen the required

upturn in economic productivity. GVA per capita remains low, over reliance on the high proportion of public sector work, low levels of R&D, poor connectivity (transport and digital) within the region, Wales, UK and globally, lack of ambition and support for growth for our SMEs to progress into medium sized businesses, a prevailing grant culture and dependency, and proportionality high levels of economic inactivity in comparison to other City Regions and Local Enterprise Partnerships across the UK remain.

Work is ongoing to develop an analytical framework to provide evidence to identify the key inclusive growth challenges of the region, which will assist in establishing appropriate interventions to address the twin objectives of boosting competitiveness and tackling inequality.

“The region is well skilled with a high proportion of the population with qualifications of degree level or equivalent...”

03. Investment and Intervention Framework

We are establishing an investment and intervention framework that will contain three designated and interconnected investment priorities linked by common focus on securing a coherent, competitive, sustainable and fair regional economy. The region is open for business and the investment and intervention framework will outline clearly how we are conducting our business. The three designated investment priorities (Innovation, Infrastructure, and Challenge) will support the delivery of the plan and will be established in partnership with the investor community to drive forwards our economic ambitions and priorities within the region. We will have a focus on an evergreen approach to our investment funds with a strong co-investment principle.

The Innovation investments will focus on opportunities where there is demonstrable competitive strength, leveraging significant other investments which will provide direct returns to the fund. The rate of return in this category will be high and ensure an evergreen investment fund for the region whilst providing a significant contribution towards jobs growth, investment leverage and GVA uplift. The Infrastructure investments will focus mainly on infrastructure projects where the public sector creates the

conditions for private sector success and civic benefits. The return on investment here will typically be indirect due to its enabling nature. Finally, the Challenge investments will be more competitive in process and will aim to identify the best solutions to challenges faced by the region. It is expected that there will be both direct and indirect returns on investment.

The ultimate aim of the investments will be improving the business environment within the CCR, creating rich ecosystems that stretch and support the development of key sectors in the economy, improving comparative performance against other cities and regions in the UK and internationally. We aim to make the CCR one of the most investable regions within the UK.

The Investment and Intervention Framework will build a delivery pipeline with our partners within, and beyond, the region focussed on the priorities identified within this plan. It will be a key facilitator to support an interconnected set of proposals over the next five years to deliver on the ambition and priorities outlined in this plan.

“We aim to make the CCR one of the most investable regions in the UK.”

CCR Investment Fund Structure

04. Regional Priorities to Boost Productivity and Accelerate Economic and Inclusive Growth

Regional priorities to boost productivity and accelerate economic and inclusive growth have been identified to specifically build on our strengths and address our weaknesses.

We believe that this two-pronged approach will boost local productivity and overcome our local barriers within the region. The remaining sections of the plan outline our priorities.

05. Businesses that Succeed

The CCR wishes to perform economically on a par with any region in the UK and internationally. It currently sits bottom of most of the economic productivity and competitiveness tables in the UK. In order to move the needle and improve the economic prosperity of the region, we must:

- Identify areas of comparative strength in the CCR that can compete at a UK level and internationally, and invest in them;
- Create rich ecosystems that stretch and support the development of key sectors within the economy – take a challenge led approach that drives up ambition and cohesiveness;
- Encourage and support entrepreneurship so that our population not only seeks employment but creates employment within the region;
- Support and nurture the Foundational Economy;
- Target our most deprived and isolated communities and support regenerative growth;
- Turn the large public sector base within the region into an asset that adds prosperity to the region.

Building on our competitive advantage and opportunity within the economy we will strategically target the following sectors for support to grow and flourish. These are:

- Compound Semiconductors, its supply chain and applications
- FinTech
- Cyber Security Analytics
- Artificial Intelligence and Data Science
- Creative Economy
- Life sciences and more specifically the medical devices and diagnostics sub-sectors
- Transport Engineering – automotive, trains and aircraft

The list of strategic sectors is not exclusive, and we will support investments in other sectors such as energy and environment if a compelling case is made. Sectoral analysis work is ongoing to ensure that our focus is evidence based.

We will also promote the CCR as an attractive place for business and encourage close collaborations and partnership working across the private sector and with the public sector, Higher Education and Further Education sectors. Cross-sectoral collaboration and cohesion will be a central feature of our approach. CCR is open for business.

Sectors to strategically target:

Cross sectoral collaboration and stakeholder cohesion is a central feature:

06. Skills of the Future

We have a skilled workforce in the region, with our Colleges and Universities playing a critical role, but there is more to be done. We need to continue to work on joining up the education, employment and skills system to meet the region's business and public sector needs of today and in the future. We must ensure that the region has a highly-skilled, motivated and forward-thinking workforce with a significant supply of critical skills to enable businesses to flourish over the next decades from entry level to masters and doctorate level qualifications.

We will look to enhance existing and develop new provisions where required to drive the priorities of our businesses in the region. Working in partnership with our education and training providers, we will:

- Develop proposals for data, cyber, digital and software scientists to exploit the potential of the new industries of the future and derive added value from existing and more traditional industries;

- Develop proposals to service the needs of our priority sectors within the region e.g. Compound Semiconductor Cluster;
- Develop proposals for a high-quality executive leadership training for business leaders across the region (targeted specifically at SME's with growth potential);
- Develop a programme of entrepreneurship across the region (targeted at 14 to 21-year olds) to inspire the next generation of entrepreneurs within the region;
- Support existing initiatives to increase apprenticeships in growth sectors across the region at all levels;
- Upskill the public sector with data literacy, research and development, procurement, and innovative leadership capacity;
- Working with current schools, colleges, universities, and private providers to ensure that sufficient local home grown talent is nurtured and trained to service the needs of our foundational economy.

“We must ensure that the region has a highly-skilled, motivated and forward-thinking workforce...”

07. Infrastructure Fit for the Future

Connectivity is critical – both digital and physical. We need a reliable infrastructure that connects the region, both within and wider afield, to boost productivity and prosperity. The current Metro plans are a significant step in this direction and we will bring forward further proposals to maximise and unlock future potential offered by its development. We will ensure that we have a road, rail, air and digital infrastructure (fixed and mobile) to connect us to the world. Working with our partners we will:

- Develop a Digital Connectivity Plan to make the region one of the most digitally advanced regions in the UK;
- Continue to work closely with the UK and Welsh Governments to further develop, enhance and implement the transport network to improve links within the region, reduce congestion and connect people;

- Embrace the Metro as a backbone to connecting CCR and shaping places on its networks;
- Develop a series of strategic employment spaces across the region to meet the needs of businesses;
- Develop proposals for energy efficient and accessible housing;
- Utilities networks – ensure, for example, we are ready for the future of electric and/or hydrogen vehicles;
- Develop the organisational and data infrastructure and capacity within the public sector to embrace the challenge led approach through a Public Services Testbed.

A region wide strategic focus will enable key towns across the region to be connected ensuring that the growth of the economy is balanced and inclusive

Strategic Hubs and Opportunity Areas

- Cities**
Cardiff, Newport
- Enterprise Zones**
Ebbw Vale, Cardiff Airport & St Athan
- Strategic Hubs**
Barry, Bridgend, Caerphilly, Caldicot, Cwmbran, Merthyr Tydfil, Pontypridd

08. Enabling Innovation-Led Growth

The UK Government Industrial Strategy identifies four Grand Challenges signalling a shift towards a challenge led approach to driving future productivity and prosperity. The Grand Challenges are future-facing

and will shape our economic future. They are underpinned by expected developments in technology that will transform industries and societies around the world in which the UK could play a leading role.

Expected developments in technology:

AI and Data Economy
Putting the UK at the forefront of the artificial intelligence and data revolution.

Clean Growth
Maximising the advantages for UK industry from the global shift to clean growth.

Ageing Society
Harnessing the power of innovation to meet the needs of an ageing society.

Future of Mobility
Becoming a world leader in the way people, goods and services move.

In time, other unidentified challenges will present themselves and we as a region must be able to react and address them.

Target UK GDP to be spent on R&D by 2027

We will take a broad view of innovation, focussed on innovation that increases productivity from the foundational economy, embracing innovation in public services, through to innovation in unique Intellectual Property where market leadership is evident. Successful innovation and commercialisation within this context will be critical to our success, and we will use novel instruments such as Challenge Funds to spearhead invention and promote competition for financial awards to best in class participants.

With historically low levels of competitiveness and productivity, coupled with low levels of R&D investment and intensity, we will encourage a greater focus on R&D and innovation within our region. The focus on the grand challenges within the Industrial Strategy and the target for 2.4% of UK GDP to be spent on R&D by 2027 we must support our economy to adapt and adjust to the wider economic context. Therefore, our focus on innovation-led growth will be central to our plan and we will identify our areas of competitive strength and support the establishment of clusters that can compete internationally.

Recognising that approximately two-thirds of the regional GVA is tied-up in the public sector we will establish a Public Services Testbed with a mission-driven approach to generate new collaborations and public services improvements and enable the delivery of public sector innovation and economic value. This approach involves the identification of a major 'grand challenges' and the development of 'missions' with clear and ambitious targets for improvement that form a basis upon which a number of related and complementary multi-sector (private, public, third sectors) projects may be identified in order to deliver business growth opportunities. The combination of public services innovation with new thinking in public sector procurement has the potential to generate new market opportunities, and commercial value that benefits the region.

“...we will encourage a greater focus on R&D and innovation within our region.”

Economic Growth Plan

Future Generations Assessment

<p>Name of the Officer completing the evaluation:</p> <p>Kellie Beirne</p> <p>Phone no: 07826 9219286 E-mail: kellie.beirne@cardiff.gov.uk</p>	<p>Please give a brief description of the aims of the proposal</p> <p>Setting out the REGP Regional Industrial and Economic Plan</p>
<p>Proposal: REGP –Initial Economic and Industrial Plan</p>	<p>Date Future Generations Evaluation form completed: 4 February 2018</p>

1. Does your proposal deliver any of the well-being goals below? Please explain the impact (positive and negative) you expect, together with suggestions of how to mitigate negative impacts or better contribute to the goal.

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<p>A prosperous Wales Efficient use of resources, skilled, educated people, generates wealth, provides jobs</p>	<p>The Plan draws on data and evidence and seeks to set out the competitive strengths and advantages of the CCRCD</p>	<p>The proposal is predicated on the principles of ‘good growth’ and has enshrined within in it, commitments to reducing inequality and promoting social justice.</p>
<p>A resilient Wales Maintain and enhance biodiversity and ecosystems that support resilience and can adapt to change (e.g. climate change)</p>	<p>The plan promotes ‘good growth’ and the kind of growth that has regard to living systems and demonstrating that a healthy economy and healthy planet are not mutually exclusive.</p>	<p>In sub-sets of the plan e.g. mobility – enhancement sare being made to existing schemes around incorporation of Electric Vehicle and Station of the Future and Energy Revolution proposals and so on. We are taking bold steps to demonstrate value added through a focus on sustainability and resilience</p>

Well Being Goal	Does the proposal contribute to this goal? Describe the positive and negative impacts.	What actions have been/will be taken to mitigate any negative impacts or better contribute to positive impacts?
<p>A healthier Wales People's physical and mental wellbeing is maximized and health impacts are understood</p>	<p>Developing the conditions, through new links and networks – and opportunities for future engagement – will make a contribution to prosperity, which in turn will support wellness and wellbeing.</p>	
<p>A Wales of cohesive communities Communities are attractive, viable, safe and well connected</p>	<p>The plan seeks to position our region and its competitive strengths – economic and wider and will seek to yield demonstrative legacy benefit for the country as a whole.</p>	<p>ROI assessments and expert advice on how to leverage opportunities and build on local social capital whilst at the same time, scanning the world for experts who can help grow high potential ideas</p>
<p>A globally responsible Wales Taking account of impact on global well-being when considering local social, economic and environmental wellbeing</p>	<p>The Plan has regard to the wider factors required to support a vibrant and responsible economy</p>	<p>Proposals emanating from the Plan will place an emphasis on new forms of procurement and support for BCorps, employee owned and public purpose organisations. For example, Public Services Testbed.</p>
<p>A Wales of vibrant culture and thriving Welsh language Culture, heritage and Welsh language are promoted and protected. People are encouraged to do sport, art and recreation</p>	<p>Our City Deal is uniquely Welsh – but pitches towards being world leading in areas of competitive strength. This enables a strong reflection on our rich culture and heritage.</p>	
<p>A more equal Wales People can fulfil their potential no matter what their background or circumstances</p>	<p>City Deal is about delivering as far as possible across 10 LAs and a population of 1.5m people. It is about economic gains – but importantly how this will convert as tools for improving people's lives.</p>	<p>The 'spread' and targeting of City Deal benefits in a place-based and place-led way.</p>

2. How has your proposal embedded and prioritized the sustainable governance principles in its development?

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? If yes, describe how. If not explain why.	Are there any additional actions to be taken to mitigate any negative impacts or better contribute to positive impacts?
 <p>Long Term</p> <p>Balancing short term need with long term and planning for the future</p>	<p>The Plan is relevant to today, but focused on foresight and what comes, tomorrow.</p>	<p>Continued work on data/ evidence and generating in equal measure, insight and foresight.</p>
 <p>Collaboration</p> <p>Working together with other partners to deliver objectives</p>	<p>The report sets out the different partners and sectors engaged in this work</p>	<p>City Deal will be delivered by a multiplicity of diverse partners.</p>
 <p>Involvement</p> <p>Involving those with an interest and seeking their views</p>	<p>The report sets out the different partners and sectors engaged in this work</p>	
 <p>Prevention</p> <p>Putting resources into preventing problems occurring or getting worse</p>	<p>The Plan seeks to stimulate economic activity in the region creating opportunities to engage people in work and develop the prosperity needed to ensure people are more economically self reliant and self sufficient.</p>	
 <p>Integration</p> <p>Considering impact on all wellbeing goals together and on other bodies</p>	<p>The REGP is not a public body. But, in working with City Deal and understanding some of the wider social and sustainability aims, seeks to make its contribution to wellbeing goals.</p>	

3. Are your proposals going to affect any people or groups of people with protected characteristics? Please explain the impact, the evidence you have used and any action you are taking below.

Protected Characteristics	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Age	As with all those categories below – the impacts will relate to specific delivery that underpins the execution and operation of this Plan	None arising at this time.	
Disability	As above	As above	
Gender reassignment	As above	As above	
Marriage or civil partnership	As above	As above	
Pregnancy or maternity	As above		
Race	As above		
Religion or Belief	As above		
Sex	As above		
Sexual Orientation	As above		

Protected Characteristics	Describe any positive impacts your proposal has on the protected characteristic	Describe any negative impacts your proposal has on the protected characteristic	What has been/will be done to mitigate any negative impacts or better contribute to positive impacts?
Welsh Language	As above		

4. Safeguarding & Corporate Parenting. Are your proposals going to affect either of these responsibilities?

	Describe any positive impacts your proposal has on safeguarding and corporate parenting	Describe any negative impacts your proposal has on safeguarding and corporate parenting	What will you do/ have you done to mitigate any negative impacts or better contribute to positive impacts?
Safeguarding	Not directly relevant –however, building the future economy should have a profoundly positive impact on ability to safeguard the future of our residents		
Corporate Parenting	Not directly relevant – however building strength in the economy should create opportunities for all of the young people entrusted in our care		

5. What evidence and data has informed the development of your proposal?

<ul style="list-style-type: none"> • Evidence and data from other cities, regions and countries • New data emerging from the ISCF ann Innovate UK about engagement • Arloesiadur • Previous report of Economic Growth and Competiitveness Commission
--

6. SUMMARY: As a result of completing this form, what are the main positive and negative impacts of your proposal, how have they informed/changed the development of the proposal so far and what will you be doing in future?

As above, the main implications will be in the delivery of this work.

7. MONITORING: The impacts of this proposal will need to be monitored and reviewed. Please specify the date at which you will evaluate the impact, and where you will report the results of the review.

The impacts of this proposal will be evaluated on:

Quarterly 2019/20
