

Division of Responsibilities Guidance: Between Blaenau Gwent Community/Faith and Foundation Schools and Council

Version 2.0

Date of Issue: July 2019

Date of Implementation: Sept 2019

Building and Engineering Repairs and Maintenance

The purpose of the following guidance and procedure is to ensure the effective instigation, monitoring and completion of maintenance and repair works to schools by both Education and Technical Services; also, to inform quality monitoring processes.

Maintenance and repair refers to, the action necessary to retain an element of a building in, or to restore it to a state in which it can perform the required function.

The requirement for maintenance shall be not less than that necessary to meet statutory health and safety and current legal requirements. Maintenance shall mean 'maintaining an element in an effective state, safe, in efficient working order and in good repair.'

In carrying out the function of maintenance it is understood that only materials of an equivalent quality and standard will be provided and the work undertaken by competent and suitably qualified persons with all the accompanied qualifications, insurances and Risk and Method statements.

***Self-help approaches** - this involves the use of external parties approached directly via the school to address minor works identified by the headteacher and/or a member of school staff. In instances where this is deemed to be the best approach by the school, Technical Services/Health and Safety and Education approval **must be** sought prior to work being carried out in order to ensure compliance with the Council's policies such as Health and Safety, FRA, Asbestos Management etc. This does not preclude schools from carrying out works that are cost efficient to the school, they do however ensure that Headteachers, Governing Bodies comply with necessary technical and health and safety precautions/requirements prior to the works being undertaken.

Schools must complete an application form in relation to any self-help schemes they want to carry out.

On receipt of the form a decision will be taken by officers within Education/Tech Services and Health and Safety re the nature of the project, its requirements and risks involved and either:

- Agree to the school proceeding with the works themselves providing a risk assessment and the technical specification for the work has been approved by the Health and Safety and Technical Officers of the Council.
- Arrange to meet with the school and for the scheme to be project managed via the Council to ensure that it is undertaken in a legal and safe manner.

It is therefore essential that projects are planned and approval sought well in advance of implementation to avoid delay. The Council must ensure regulatory compliance with the law and that the works are undertaken by a competent person(s)/company.

Substantial - Within this document 'substantial' shall mean where the work/repair/component represents 75% or more of the whole system and/or structure concerned.

Glazing - this item of work is paid through the Glazing programme which schools contribute to annually. If schools do not contribute into the programme any works that fall under the Glazing heading will be the responsibility of the school.

School (SIMS) - this item of work is the responsibility of the individual school to fund.

SIMS* - this item of work is paid through SIMS* which schools contribute to annually. If schools do not contribute into SIMS* any works that fall under the SIMS* heading will be the responsibility of the school.

Corporate Landlord - The cost of this item of work is the responsibility of the Corporate Landlord/Council to meet.

Statutory Testing - please see page 17.
