Briefly outline the proposal indicating what change or decision is to be made, also provide any documentation that may be used to support this.

**What is the proposal that needs to be assessed?**

The proposal is for Council to consider new Engagement and Participation Strategy 2024/25 – 27/28, as part of our obligations under the Local Government & Elections (Wales) Act 2021. Under the Act, the Council has a statutory obligation to address:-

- a) ways of promoting awareness among local people of the principal council's functions;
- b) ways of promoting awareness among local people of how to become a member of the principal council, and what membership entails;
- c) ways of facilitating access for local people to information about decisions made, or to be made, by the principal council;
- d) ways of promoting and facilitating processes by which local people may make representations to the principal council about a decision before, and after, it is made;
- e) arrangements made, or to be made, for the purpose of the council's duty in section 62 of the 2011 Measure (bringing views of the public to attention of overview and scrutiny committees);
- f) ways of promoting awareness among members of the principal council of the benefits of using social media to communicate with local people.

We recognise as a Council that the successful delivery of this plan will require us to have an effective engagement and participation framework in place that has:

- Strong political and professional leadership;
- A ‘One Council Approach’ for delivering engagement activity across the organisation;

- Clear aims, objectives and actions;
- Effective monitoring and performance arrangements.

The following steps were undertaken as part of drafting the new objectives for engagement and participation:

- Conducted preliminary research into best practice
- Undertook initial engagement activity with Members (via a joint Scrutiny Committee workshop) and staff (via the Policy & Performance Network) during summer 2023.
- Prepared a draft Strategy for consideration by Scrutiny Committee
- Prepared a formal consultation process to seek views and feedback on the proposed strategic objectives
- Engaged with internal and external stakeholders to gather views and feedback on the proposed strategic objectives

The feedback was used to develop the new Engagement & Participation Strategy Objectives and Action Plan for 2024/25 – 27/28 which is the proposed document for assessment.

<b>Priority 1</b> - Maximise learning and skills for all to create a prosperous, thriving, resilient Blaenau Gwent	
<b>Priority 4</b> - Empowering and supporting communities to be safe, independent and resilient	<p><b>Objective 3</b></p> <p>Encourage participation in the electoral and decision-making process, safeguarding future generations’ involvement in local democracy.</p>

<b>Section 4-Well-being of Future Generations (Wales) Act 2015 – The Five Ways of Working (ICLIP)</b> <i>Sustainable development principles. The WBFG Act requires the Council to consider how any proposal improves the economic, social, environmental and cultural well-being of Wales using the five ways of working as a baseline)</i>	
<b>Five Ways of Working</b>	<b>How have you used the Sustainable Development Principles in forming the proposal?</b>
<p><b>Long Tern</b></p> 	<p>Consider the long-term impact of the proposal on the ability of communities to secure their well-being.</p> <p>The plan outlines the objectives for the next four years, but this is based on research, best practice, obligations under the Local Government &amp; Elections (Wales) Act, and understanding the benefit to our communities. The plan shows how we think we can keep progressing and improve over the next four years to streamline and enhance engagement and participation levels in the long term.</p>
<p><b>Prevention</b></p> 	<p>Consider how the proposal is preventing problems from occurring or getting worse</p> <p>We want the Strategy to create an environment where people (staff and residents) feel heard and more aware about how decisions that affect them are made. We hope that this creates a more open relationship between the Council and our communities, where services reflect the needs of residents.</p>

<p><b>Integration</b></p> 	<p>Consider how your proposal will impact on other services provided in our communities (these might be Council services or services delivered by other organisations or groups)</p> <p>The Strategy has been informed by the input from partners, staff, and our community. The four-year plan outlines how we will build on previous work, including working in partnership to deliver the most effective services that match the needs of our communities. The plan will be reviewed throughout its cycle and regular communication with those who have contributed to the development will be maintained to strengthen those relationships and get ongoing feedback. The Strategy is aligned to other council strategies such as the Strategic Equality Plan and Communications Strategy.</p>
<p><b>Collaboration</b></p> 	<p>Consider how you are working with Council services or services delivered by other organisations or groups in our communities.</p> <p>The Strategy sets out to follow the National Principles for Public Engagement in Wales as well as the Inform, Consult, Involve, Collaborate &amp; Empower spectrum of engagement.</p>
<p><b>Involvement</b></p> 	<p>Consider how you involve people who have an interest in this proposal and ensure that they represent the diversity of our communities.</p> <p>The Strategy sets out to follow the National Principles for Public Engagement in Wales as well as the Inform, Consult, Involve, Collaborate &amp; Empower spectrum of engagement.</p>

**How does your proposal link to the Welsh Governments Priorities for Wales? Please indicate below.**

1. **A PROSPEROUS WALES ...** an innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.

The Strategy sets out a streamlined approach to engagement involving a mix of online and face to face activity to maximise opportunities for local people to have their say about decisions that affect them and participate in local democracy. It is hoped that the objectives and actions within the Strategy will increase awareness of the Council's functions amongst our local communities.

2. **A RESILIENT WALES ...** a nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change). Think about how your activity will have regard to protecting and enhancing biodiversity.

The Strategy sets out a streamlined approach to engagement involving a mix of online and face to face activity, reducing the need for people to travel to a central location where appropriate. The coordinated approach to engagement across the whole council will lead to more effective engagement with local people about the things that matter to them most, including climate change and land use etc.

3. **A HEALTHIER WALES ...** a society in which people's physical and mental well-being is maximised and in which choices and behaviours that benefit future health are understood.

By being inclusive, raising awareness around Council functions and decision-making processes, and engaging & informing our communities in the most effective way on issues that matter to them most, we will be supporting people to make healthy life choices as well as understanding the barriers to public health.

4. **A MORE EQUAL WALES ...** A society that enables people to fulfil their potential no matter what their background or circumstances (including their socio economic background and circumstances).

The Strategy's objectives create equal opportunities for all people and communities to engage with the Council and participate in local democracy. It is also aligned to our Strategic Equality Plan 2024-28 to ensure positive outcomes for those with protected characteristics under the Equality Act.

5. **A WALES OF COHESIVE COMMUNITIES ...** attractive, viable, safe and well-connected communities.

The Strategy outlines our commitment towards the Wellbeing of Future Generation Act Wales National Goals of supporting 'a more Equal Wales' and 'a Wales of Cohesive Communities. Working in Partnership with stakeholders and partner organisations, through the West Gwent Community Cohesion programme, to increase awareness and understanding, celebrate diversity and bring together communities.

6. **A WALES OF VIBRANT CULTURE AND THRIVING ...** a society that promotes and protects culture, heritage and the Welsh language, and which encourages people to participate in the arts, and sports and recreation.

Engaging with local decision making and participating in local democracy is an important part of our cultural well-being. The Strategy encourages this and is also aligned to our Welsh Promotion Strategy.

7. **A GLOBALLY RESPONSIBLE WALES ...** a nation which, when doing anything to improve the economic, social, environmental and cultural well-being of Wales, takes account of whether doing such a thing may make a positive contribution to global well-being.

Section 5-Welsh Language (Wales) Measure 2011 and Welsh Language Standards
